Erosion and Sediment Yields in the Transverse Ranges, Southern California Kevin M. Scott, Rhea P. Williams, 1977

Changes and Disturbance in Tropical Rainforest in South-East Asia D. M. Newbery, T. H. Clutton-Brock, Ghilleen T. Prance, Royal Society (Great Britain), 2000 Views on the dynamics of tropical forests are changing rapidly with the recognition that their environment is variable on the decadal to century scale Fluctuating climatic conditions partly determine tropical forest structure species composition and dynamics Tropical communities are also highly contingent in space and time with respect to site and historical factors Tropical forests have experienced to some degree this disturbance regime in the past but climatologists are now predicting increasingly frequent extreme events in the new century The combination of increasing deforestation and land use conversion by man plus an increasingly variable environment means a situation that could be very difficult to manage *Geological Survey Professional Paper*, 1977

Advancing Culture of Living with Landslides

Geological Survey Professional Paper, 1984 **Geological Survey Professional Paper** Geological Survey (U.S.), 1978
Erosion and Sediment Yields in Mountain Watersheds of the Transverse Ranges, Ventura and Los Angeles Counties, California Kevin M. Scott, Rhea P. Williams, 1974 **Sediments in Archaeological Context** Julie K. Stein, William R. Farrand, 2001 Almost every artifact in archaeological analysis originates in or on the ground While there are elaborate methods for extracting and analyzing artifacts treatment of the matrix within which they are located is often unsophisticated and does not include systematic analysis Sediments in Archaeological Context concerns the analysis of this matrix and the potential use of sediments to answer archaeological questions Describing sediments and sampling them in appropriate ways do not replace the study of artifacts but they can provide additional useful information regarding a site complex its physical environment and the relations of artifacts to each other Each chapter in the volume considers sediments within a specific context Topics include sediments found in a variety of environments cultural environments rockshelter and cave environments dryland alluvial environments humid alluvial environments lake environments shoreline environments and spring and wetland environments Sediments in Archaeological Context is intended for every archaeologist who investigates sites in depositional contexts **The Physics of Glaciers** Kurt M. Cuffey, W. S. B. Paterson, 2010-06-18 The Physics of Glaciers Fourth Edition discusses the physical principles that underlie the behavior and characteristics of glaciers The term glacier refers to all bodies of ice created by the accumulation of snowfall e g mountain glaciers ice caps continental ice sheets and ice shelves Glaciology the study of all forms of ice is an interdisciplinary field encompassing physics geology atmospheric science mathematics and others This book covers various aspects of glacier studies including the transformation of snow to ice grain scale structures and ice deformation mass exchange processes glacial hydrology glacier flow and the impact of climate change The present edition features two new chapters Ice Sheets and the Earth System and Ice Sea Level and Contemporary Climate Change The chapter on ice core studies has been updated from the previous version with new material The materials on the flow of mountain glaciers ice sheets ice streams and ice shelves have been combined into a single chapter entitled The Flow of Ice Masses Completely updated and revised with 30% new material including climate change Accessible to students and an essential guide for researchers Authored by preeminent glaciologists [Journal of Sedimentary Petrology](#), 1993 **Environmental Investigations and Analyses for Los Angeles - Long Beach Harbors, Los Angeles, California 1973-1976** Harbors Environmental Projects (University of Southern California), 1976
Encyclopedia of Geology, 2020-12-16 Encyclopedia of Geology Second Edition presents in six volumes state of the art reviews on the various aspects of geologic research all of which have moved on considerably since the writing of the first edition New areas of discussion include extinctions origins of life plate tectonics and its influence on faunal provinces new types of mineral and hydrocarbon deposits new methods of dating rocks and geological processes Users will find this to be a fundamental resource for teachers and students of geology as well as researchers and non geology professionals seeking up

to date reviews of geologic research Provides a comprehensive and accessible one stop shop for information on the subject of geology explaining methodologies and technical jargon used in the field Highlights connections between geology and other physical and biological sciences tackling research problems that span multiple fields Fills a critical gap of information in a field that has seen significant progress in past years Presents an ideal reference for a wide range of scientists in earth and environmental areas of study *Salmon National Forest (N.F.), Beartrap-Dutchler Planning Unit*, 1977 **Understanding**

and Reducing Landslide Disaster Risk Nicola Casagli, Veronica Tofani, Kyoji Sassa, Peter T. Bobrowsky, Kaoru Takara, 2020-12-21 This book is a part of ICL new book series ICL Contribution to Landslide Disaster Risk Reduction founded in 2019 Peer reviewed papers submitted to the Fifth World Landslide Forum were published in six volumes of this book series This book contains the followings One theme lecture and one keynote lecture Monitoring and remote sensing for landslide risk mitigation including one keynote lecture Landslide early warning systems forecasting models and time prediction of landslides Prof Nicola Casagli is a Vice President and President elect of the International Consortium on Landslides ICL for 2021 2023 He is Professor of engineering geology at the Department of Earth Sciences University of Florence and President of the National Institute of Oceanography and Applied Geophysics OGS Trieste Italy Dr Veronica Tofani is an Associate Professor at the Department of Earth Sciences University of Florence and Program Coordinator of the UNESCO Chair on Prevention and Sustainable Management of Geo hydrological hazards University of Florence Prof Kyoji Sassa is the Founding President and the Secretary General of the International Consortium on Landslides ICL He has been the Editor in Chief of International Journal Landslides since its foundation in 2004 Prof Peter Bobrowsky is the President of the International Consortium on Landslides He is a Senior Scientist of Geological Survey of Canada Ottawa Canada Prof Kaoru Takara is the Executive Director of the International Consortium on Landslides He is a Professor and Dean of Graduate School of Advanced Integrated Studies GSAIS in Human Survivability Shishu Kan Kyoto University [Selected Water Resources Abstracts](#), 1991

New Publications of the U.S. Geological Survey, 1995 **Sedimentology and Stratigraphy** Gary Nichols, 2013-04-30 This fully revised and updated edition introduces the reader to sedimentology and stratigraphic principles and provides tools for the interpretation of sediments and sedimentary rocks The processes of formation transport and deposition of sediment are considered and then applied to develop conceptual models for the full range of sedimentary environments from deserts to deep seas and reefs to rivers Different approaches to using stratigraphic principles to date and correlate strata are also considered in order to provide a comprehensive introduction to all aspects of sedimentology and stratigraphy The text and figures are designed to be accessible to anyone completely new to the subject and all of the illustrative material is provided in an accompanying CD ROM High resolution versions of these images can also be downloaded from the companion website for this book at www.wiley.com/go/nicholssedimentology **List of U.S. Geological Survey Geologic and Water-supply Reports and Maps for California** Geological Survey (U.S.), 1987 *Hackberry LNG Project*, 2003 *Hackberry LNG*
