Expanding US Military Command in Africa Tshepo Gwatiwa, Justin van der Merwe, 2020-12-23 This book discusses the systematic expansion of the United States Africa Command AFRICOM across the continent of Africa This book posits that AFRICOM expansion in Africa is part of a broader system of accumulation based on a government business media GBM complex Applying the concept at both structural and descriptive levels the GBM complex is a function of the synergy between the state's quest for power businesses need for expansion and the informational and hegemonic functions of media actors The United States GBM complex in Africa is supported and in some locations spearheaded by its military with dispossessing effects on local actors Drawing from African case studies analytical accounts and empirical case studies this book explores AFRICOM's role within this broader strategy The volume maps both the methods and the scope of this expansion as well as local resistance to this process and comprises perspectives from the five regions of Africa key sub-regional organizations and voices from Africa's regional hegemons This book will be of much interest to students of security studies strategic studies African politics and International Relations

African Standby Force Francois VreA, 2017-10-28 Standby forces of the African Union are expected to deploy rapidly into high intensity

conflict zones Inherently they stem from and are expected to work effectively with regional militaries of differing capabilities But first the AU has to muster the political will to deploy the force at all and do it all on a shoestring budget VreA and Mandrup s edited volume illuminates through the chapter contributions the breadth of challenging political hurdles that the African Union s African Standby Force faces They do this in clear and readable terms This important book is imperative for anyone seeking to understand the rapid deployment forces on which African states have optimistically pinned the future of their collective security aspirations

The Imperial Army Project Douglas E. Delaney, 2018-01-25 How did British authorities manage to secure the commitment of large dominion and Indian armies that could plan fight shoot communicate and sustain themselves in concert with the British Army and with each other during the era of the two world wars What did the British want from the dominion and Indian armies and how did they go about trying to get it Douglas E Delaney seeks to answer these questions to understand whether the imperial army project was successful Answering these questions requires a long term perspective one that begins with efforts to fix the armies of the British Empire in the aftermath of their desultory performance in South Africa 1899 1903 and follows through to the high point of imperial military cooperation during the Second World War Based on multi archival research conducted in six different countries on four continents Delaney argues that the military compatibility of the British Empire armies was the product of a deliberate and enduring imperial army project one that aimed at standardizing and piecing together the armies of the empire while at the same time accommodating the burgeoning autonomy of the dominions and even India At its core this book is really about how a military coalition worked

Women and the Military Ruth Margolies Beitler, Sarah M. Gerstein, 2021-04-07 This addition to the Women and Society around the World series explores the roles challenges and accomplishments of women in the military in countries across the globe Around the world millions of men serve in their countries militaries be it on land on the seas or in the air But while many militaries have opened all positions to women even those on the front lines others remain closed Countries have cited a number of reasons for their policies including changing views of women and the military conscription and economic and demographic trends Written by a professor of comparative politics at the United States Military Academy at West Point and an active duty army major this book seeks to provide an understanding of women s roles in militaries around the world The book is organized by region exploring societal and cultural views of masculinity and war as well as factors influencing changing views of women and the military including conscription and economic and demographic trends Topics also include sexual harassment recruitment and views on women s physicality and strength High school students undergraduates and general readers will find this cross cultural study a fascinating and important resource

Geohistory, Capitalist Development, and South Africa Kevin R. Cox, 2025-02-27 In South Africa it is thirty years since apartheid was overthrown The country now teeters on being a failed state But South African history cannot be explained in isolation from developments in the rest of the world Nor can it be understood in terms of change from a regime where race seemed all determining to one

where race is supposed to be a matter of indifference Rather this book argues that the key to understanding South Africa lies in the logics of capitalist development These explain why capitalist domination has taken racial forms and why global conditions have been so important

Nasser's Peace Michael Sharnoff, 2017-05-23 Gamal Abdel Nasser was arguably one of the most influential Arab leaders in history As President of Egypt from 1956 to 1970 he could have achieved a peace agreement with Israel yet he preferred to maintain his unique leadership role by affirming pan Arab nationalism and championing the liberation of Palestine a common euphemism for the destruction of Israel In that era of Cold War politics Nasser brilliantly played Moscow Washington and the United Nations to maximize his bargaining position and sustain his rule without compromising his core beliefs of Arab unity and solidarity Surprisingly little analysis is found regarding Nasser's public and private perspectives on peace in the weeks and months immediately after the 1967 War Nasser's Peace is a close examination of how a developing country can rival world powers and how fluid the definition of peace can be Drawing on recently declassified primary sources Michael Sharnoff thoroughly inspects Nasser's post war strategy which he claims was a four tiered diplomatic and media effort consisting of his public declarations his private diplomatic consultations the Egyptian media's propaganda machine and Egyptian diplomatic efforts Sharnoff reveals that Nasser manipulated each tier masterfully providing the answers they desired to hear rather than stating the truth that he wished to maintain control of his dictatorship and of his foothold in the Arab world

Defence Diplomacy and National Security Strategy Ian Liebenberg, Dirk Kruijt, Shrikant Paranjpe, 2020-04-20 The post cold war era presented security challenges that at one level are a continuation of the cold war era at another level these phenomena manifested in new forms Whether the issues of economics and trade transfer of technologies challenges of intervention or humanitarian crisis the countries of the South previously pejoratively labelled Third World or developing countries have continued to address these challenges within the framework of their capabilities and concerns The volume explores defence diplomacies national security challenges and strategies dynamics of diplomatic manoeuvres and strategic resource management of Latin American southern African and Asian countries

Ethics at War Deane-Peter Baker, Rufus Black, Roger Herbert, Iain King, 2023-12-20 This book debates competing approaches to ethical decision making for members of the armed forces of liberal democratic states In this volume four prominent thinkers propose and debate competing approaches to ethical decision making for military personnel Deane Peter Baker presents and expounds the Ethical Triangulation model an ethical decision making method he has employed through much of his career as an applied military ethicist Rufus Black advocates for a natural law based approach one which has heavily influenced the framework formally adopted by the Australian Defence Force Roger Herbert outlines the Moral Deliberation Roadmap the moral reasoning framework recently adopted by the US Naval Academy Iain King then sets out a model of quasi utilitarian decision making developed in several post conflict settings and refined at the UK's Royal College of Defence Studies After the opening chapters in which each author outlines their favoured decision making approach the four

contributors then evaluate each other's proposals often critically. Philosopher David Whetham offers some concluding thoughts in which he summarizes areas of agreement between the authors, identifies key areas of difference, and suggests directions for future research. This book will be of great interest to students of military ethics, the ethics of war, moral philosophy, and International Relations, as well as military professionals. **American Civil War** Spencer C.

Tucker, 2013-09-30 This expansive multivolume reference work provides a broad multidisciplinary examination of the Civil War period, ranging from pre-Civil War developments and catalysts such as the Mexican American War to the rebuilding of the war-torn nation during Reconstruction. The Civil War was undoubtedly the most important and seminal event in 19th-century American history. Students who understand the Civil War have a better grasp of the central dilemmas in the American historical narrative: states' rights versus federalism, freedom versus slavery, the role of the military establishment, the extent of presidential powers, and individual rights versus collective rights. Many of these dilemmas continue to shape modern society and politics. This comprehensive work facilitates both detailed reading and quick referencing for readers from the high school level to senior scholars in the field. The exhaustive coverage of this encyclopedia includes all significant battles and skirmishes, important figures, both civilian and military, weapons, government relations with Native Americans, and a plethora of social, political, cultural, military, and economic developments. The entries also address the many events that led to the conflict, the international diplomacy of the war, the rise of the Republican Party, and the growing crisis and stalemate in American politics, slavery, and its impact on the nation as a whole, the secession crisis, the emergence of the total war concept, and the complex challenges of the aftermath of the conflict. *Transforming Higher Education in Asia and Africa* Fred M.

Hayward, 2020-03-01 Drawing on over fifty years of on-the-ground experience, Fred M. Hayward's *Transforming Higher Education in Asia and Africa* analyzes change processes in higher education in eight Asian and African countries. The twelve cases range from the push to upgrade and transform higher education in Afghanistan in the midst of a war to the successful struggle against apartheid in South African institutions, as well as thwarted efforts in Sierra Leone and Madagascar. Providing both practical lessons learned and hope for communities globally, Hayward demonstrates that higher education change and even transformation, which is more fundamental and structural, can occur even in the most difficult environments. Successful transformation requires well-crafted strategic and budget plans with careful implementation, monitoring, and effective leadership at multiple levels. Yet also critical are a commitment to human development, a desire for freedom, and belief in democracy and recognition that high-quality higher education is essential to national development. **Giants** Peter

Phillips, 2018-08-28 A look at the top 300 most powerful players in world capitalism who are at the controls of our economic future. Who holds the purse strings to the majority of the world's wealth? There is a new global elite at the controls of our economic future, and here former Project Censored director and media monitoring sociologist Peter Phillips unveils for the general reader just who these players are. The book includes such power players as Mark Zuckerberg, Bill Gates, Jeff Bezos,

Jamie Dimon and Warren Buffett As the number of men with as much wealth as half the world fell from sixty two to just eight between January 2016 and January 2017 according to Oxfam International fewer than 200 super connected asset managers at only 17 asset management firms each with well over a trillion dollars in assets under management now represent the financial core of the world's transnational capitalist class Members of the global power elite are the management the facilitators of world capitalism the firewall protecting the capital investment growth and debt collection that keeps the status quo from changing Each chapter in *Giants* identifies by name the members of this international club of multi millionaires their 17 global financial companies and including NGOs such as the Group of Thirty and the Trilateral Commission and their transnational military protectors so the reader for the first time anywhere can identify who constitutes this network of influence where the wealth is concentrated how it suppresses social movements and how it can be redistributed for maximum systemic change
