Step One: Isolate x^2

$$x^2 = 36$$

Step Two: Square root both sides

Solving Square Root Equations Tesccc:

Solving Radical Equations , Discover how to solve equations that contain radical expressions A key step is isolating the radical term and then squaring both sides As always it s important to check the solution by plugging it into the equation to see if it makes sense This is especially true with radical equations which can sometimes yield extraneous or invalid solutions

 Norman Balason, 2021-06-19 The QUADRATIC EQUATIONS AND FUNCTIONS WORKBOOK is a resource that Algebra 2
 students can use to practice solving quadratic equations writing quadratic equations graphing quadratic functions writing
 quadratic functions and solving word problems that involve quadratic equations and functions There are nine sections in this
 workbook Example problems with step by step solutions precede each type of problem for sections one through nine
 Students should study these examples before starting the problems This workbook also contains the step by step solutions for
 all problems Section 1 begins with problems for students to use square roots to solve quadratic equations in simplest terms
 The denominator for answers is rationalized In Section 2 students solve quadratic equations by factoring and by using the
 Zero Product Property Section 3 includes problems where students solve quadratic equations by completing the square This
 workbook contains the derivation of the Quadratic Formula In Section 4 students use the Quadratic Formula to solve
 quadratic equations This workbook includes the derivation of the sum and product of roots for a quadratic equation in
 standard form Section 5 is where students write quadratic equations given their roots Students can use the Zero Product
 Property or the sum and product of its roots to do these problems In Section 6 students explain why the graph of the
 quadratic function which is called a Parabola will open upward or downward Then they determine if the graph will have a
 minimum or a maximum Section 7 is where students graph quadratic functions that are in standard factored and vertex form
 In Section 8 students use the coordinates for points on the graph of a quadratic function to write the quadratic function in
 factored vertex and standard form Section 9 is where students solve word problems that involve quadratic equations and
 quadratic functions Finally there are step by step solutions for all problems ABOUT THE AUTHOR Teaching Experience
