De-constructing Dahl Laura Viñas Valle, 2016-01-14 This is the first single authored monograph on Roald Dahl since 1994 Remarkably in spite of Dahl s commercial success and the divided opinions he generates very little scholarly work on the author has been produced In the light of sociocultural constructivist theory *De-constructing Dahl* focuses on the critical context texts and paratexts that make up the packaging of Dahl It offers the first thorough overview of the criticism and the language employed to discuss Dahl since the 1970s the difficulties that using such language entails and how it still permeates current criticism It delves into the relationship between Dahl s children s and adult fiction by drawing comparisons and contrasts and exploring the common traits and patterns that bring his whole work together It also examines how Dahl constructed himself as a children s writer how his publishing house and allies contribute to mediating and sustaining the Dahl public persona the ways that marketing strategies are responsible for the identity of his books and how editorial decisions about the age range and therefore how the classification of a manuscript as a book for children or for adults constructs particular ideas of what children s literature is and what is considered appropriate or unsuitable for children to read

Roald Dahl Damian Walford Davies, 2016-08-15 Published to mark the centenary of Roald Dahl s Welsh birth *Roald Dahl Wales of the Unexpected* breaks new ground by revealing the place of Wales in the imagination of the writer known as the world s number one storyteller Exploring the complex conditioning presence of Wales in his life and work the essays in this collection dramatically defamiliarise Dahl and in the process render him uncanny Importantly Dahl is encountered whole his books for children and his fiction for adults are read as mutually invigorating bodies of work both of which evidence the ways in which Wales and the author s Anglo Welsh
