INSTALLATION INSTRUCTIONS

S O N A N C E C S E R I E S I N - W A L L S P E A K E R S

2 - CHANNEL AUDIO PLACEMENT

For best performance, the center of the Sonance C series speakers should be placed around ear level. This would be approximately 40" for a seated listener and 62" for a standing listener.

The distance from the listener to the speakers and the distance between the speakers should be the same, see diagram. Distance A, B and C should be the same.

HOME THEATER PLACEMENT

Locate the left and right speakers at the same level as the screen. Depending on the height of the television, the center channel can go above or below. Try to keep the center channel as close to the height of the left and right speakers as possible.

Note: The C series speakers are not video shielded. Do not locate the speakers closer than 20" to your television or damage to your picture tube may occur.
