

Song Analysis Paper

Instructions:

Songs are often written about interpersonal relationships such as friendships, romantic partnerships, or parent and child relationships. For this paper, you will select a song that describes an interpersonal relationship. You will then analyze this relationship using concepts, models, and tools that we have learned in our course.

First, select a song that describes an interpersonal relationship. Find the lyrics for the song and submit them in a document separate from your paper.

Next, analyze the song lyrics. What do they tell you about the relationship? What needs are being met or not met? Is the couple on the same page or do they have different perceptions of the situation? Are they just beginning to self-disclose, or do they know one another well?

Then, based on what you learned about the relationship from the song, select 5 concepts, models, or tools to explain what you learned from the song. Do not simply mention that you observed a line in the song, and that made you think of a concept! Really take a deep dive into the concept and tell us about all the things that concept shows us about the relationship.

Paper Formalities:

Your paper should be 4 pages in length. You are welcome to write more should you be so inclined, but you will not be required to write any more than 4.

Because you will be referencing a song and material from our textbook, which are considered outside sources, you must cite them both in-text and on a references page using APA format. The reference page does not count toward your page count! It is simply an edition at the end of the document. You are welcome to do outside research if you wish, but you are not required to.

Speaking of APA, please ensure that your paper aligns with APA student paper guidelines. I will include a link to an APA student sample paper below from OWL Purdue. Please check out their tips for formatting and citation guidelines as well! You will notice APA format calls for a title page. The title page does not count towards the page count! You are also welcome to visit the MSJC Writing Center for help with your formatting, citations, or general writing help.

Extra Credit Opportunities: You can earn extra credit on this assignment by doing the following:

- Visiting office hours to ask questions or discuss your assignment (10 points)
- Providing proof of a visit to the Center for Communication Excellence (10 points)
- Mentioning a part or parts of the music video to help explain your points (10 points)
 - Note that this is only MENTIONING the music video, not making your whole paper about the music video. This assignment is primarily about the song!

Song Means: Analysing and Interpreting Recorded Popular Song Allan F. Moore, 2016-04-01 The musicological study of popular music has developed particularly over the past twenty years into an established aspect of the discipline The academic community is now well placed to discuss exactly what is going on in any example of popular music and the theoretical foundation for such analytical work has also been laid although there is as yet no general agreement over all the details of popular music theory However this focus on the what of musical detail has left largely untouched the larger question so what What are the consequences of such theorization and analysis Scholars from outside musicology have often argued that too close a focus on musicological detail has left untouched what they consider to be more urgent questions related to reception and meaning Scholars from inside musicology have responded by importing

into musicological discussion various aspects of cultural theory It is in that tradition that this book lies although its focus is slightly different What is missing from the field at present is a coherent development of the what into the so what of music theory and analysis into questions of interpretation and hermeneutics It is that fundamental gap that this book seeks to fill Allan F Moore presents a study of recorded popular song from the recordings of the 1920s through to the present day Analysis and interpretation are treated as separable but interdependent approaches to song Analytical theory is revisited covering conventional domains such as harmony melody and rhythm but does not privilege these at the expense of domains such as texture the soundbox vocal tone and lyrics These latter areas are highly significant in the experience of many listeners but are frequently ignored or poorly treated in analytical work Moore continues by developing a range of hermeneutic strategies largely drawn from outside the field strategies originating in the most part within psychology and philosophy but still deeply r
