The Red Kimono Lawrence Friedman,2020-03-15 Frank May s practice leans heavily to estate planning Murder cases are way out of his line But when his client Stanford law professor Peter Prosser is murdered Frank becomes deeply entangled in yet another violent death Prosser had been writing a detective novel Frank has the only copy of the manuscript minus the crucial last chapter Far from a literary masterpiece the novel features the thinly disguised members of the Soames family the family of Prosser s ex wife and even a character based on Frank himself Can this badly written novel tell us why Prosser died and who killed him Mysteriously real life events start paralleling events in the novel including a second murder a woman in the Soames household dressed in a red kimono is strangled in her room As Frank follows the trail it leads to a number of unlikely places including the cultural studies department of Stanford University and a wedding chapel in Las Vegas Maybe if he can endure reading the dead professor s novel he can solve the evolving mystery Part of the series The Frank May Chronicles by QP Books

[The Red Pencil](#) Marianna Tax Choldin,Maurice Friedberg,2024-11-26 The Red Pencil 1989 examines the many ways in which Soviet censorship interfered in the creative process in the words of those who experienced it first hand It helps to identify the ways in which Soviet artistic and intellectual production was shaped by the practices of Soviet censorship The book goes beyond the simple recounting of banned books and taboo subjects to examine the more subtle issue of how Soviet writers attempted to strike a balance between accommodating the demands of government censorship while retaining for themselves a modicum of unfettered expression and intellectual integrity Most of the contributing authors were active as writers critics editors film and theatre specialists or scientists prior to their departure from the Soviet Union in the 1970s

A Cultural-Historical Study of Children Learning Science Marilyn Fleer,Niklas Pramling,2014-10-01 This book moves beyond the traditional constructivist and social constructivist view of learning and development in science It draws upon cultural historical theory in order to theorise early childhood science education in relation to our currently globalised education contexts The book argues that concept development in science for young children can be better theorised by using Vygotsky s concept of Imagination and creativity Vygotsky s theory of play and his work on higher mental functions particularly the concept of inter and intrapsychological functioning Key concepts are extracted from the theoretical section of the book and used as categories for analysis in presenting evidence and new ideas in the second section of the book In this second part of the book the authors examine how science knowledge has been constructed within particular countries around the globe where

empirical research in early childhood science education has occurred The third part of the book examines the nature of the encounter between the teacher and the child during science learning and teaching In the final part of the book the authors look closely at the range of models and approaches to the teaching of early childhood science that have been made available to early childhood teachers to guide their planning and teaching They conclude the book with a theoretical discussion of the cultural historical foundation for early childhood science education followed by a model of teaching scientific concepts to young children in play based settings including homes and community contexts
