Sometimes Love Is Not Enough Bob Hertz, 2013-12-30 Every year thousands of people are diagnosed with some form of lung cancer Some can be operated on and the cancer taken out Additional forms of chemotherapy might be needed Newer targeted drugs might be employed And still the fear of all who are diagnosed is whether the cancer will spread to other organs and eventually lead to ones demise Treatments in the last decade or so have resulted in longer lives as oncologists work with pharmaceutical companies as trial drug regimens have become more and more specific to each persons DNA When drugs stop working and there appears to be no hope there is at least one type of lung cancer bronchioloalveolar carcinoma a type of adenocarcinoma that might avail itself to a radical cure or at least a very good temporary fix That fix is a single sided or double sided lung transplant While there are many transplant centers around the country most would not even consider a transplant when there is any type of cancer involved There are very few and especially one the University of Pittsburgh Medical Center willing to take such a risk for BAC patients If it is determined that a BAC is staying within the alveoli of the lungs and not metastasizing to other organs UPMC will consider taking this risk because of all their experience in lung transplantation since the late 1980s That is why our oncologist recommended we find out more about this program and why we ended up choosing to work with them for my wifes condition Susanne is my wife of thirty seven years She hugs my soul every day She has gone through many many medical procedures but this one was the most important procedure of her life and it all started with a cough

striving to overcome After experiencing such devastation you are soon bombarded with questions like Is my fairy tale wedding over Did I not hear the voice of God clearly Did I use this method of marriage as a defense to comfort my fears and doubts or did I marry the wrong man For surely the man whom I love and who loves me will never bring harm to me Every marriage is unique and designed with a specific purpose and plan Despite religion race or creed marriages can sometimes be uncertain Where there are couples that enter into this union strictly for love others may come together under different circumstances And when you are genuinely in love despite any offense you cannot just turn the switch on and off because love is everlasting With this element both individuals can conquer the world even the sin of adultery With the brutal pains and agony of adultery everyone has a breaking point Oh how I wished I could have turned back the hands of time Had I known how destructive this spirit was I could have planned and prepared for it but one can never predict life to be sweet without the bitterness of war But it wasn't until I married my husband that I found that he was not my enemy and this spirit was indeed an intruder Did I run and hide No I pulled up my sleeves like an old fashioned woman would and joined him in this battle From start to finish we have invested in this marriage and built this relationship on a sacred foundation Why would I just hand my marriage over The modern woman's evolution is to pack her belongings and don't look back She is strong and independent but I am that kind of woman who has embraced the stamina to stay and who is willing to go beyond the vows

**Motherhood in the Media** Barbara Barnett,2016-02-19 This book examines contemporary media stories about women who kill their children By analyzing media texts motherhood blogs and journalistic interviews the book seeks to understand better maternal violence and the factors that lead women to harm their children The central thesis of this book is that media practices have changed dramatically during the past 50 years as has society s views on appropriate feminine behavior yet definitions of characteristics of good mothers remain largely defined by 1950s sit coms Victorian ideals and Christian theology The book contends that in spite of media saturation in American society and the media s increased opportunities to tell complex and nuanced stories news media narratives continue to situate maternal violence as rare unfathomable and unpredictable The news media s shift in

focus from public service to profit making industry has encouraged superficial coverage of maternal violence as reporters look for stories that sell not stories that explain Motherhood blogs in contrast offer an opportunity for women to tell their own stories about motherhood based on experience Interviews with journalists offer insights into how the structure of their jobs dictates media coverage of this intimate form of violence     Jesus My Love Henry F. Jacobs Iii,2012-06     **Damned If You Do** Scotia Stone,2011-08-01     *Moving Past PTSD* Jaime B. Parent,2019-07-24 From World War I until today the United States has failed to provide adequate transition support to millions of veterans leaving military service Instead of providing meaningful jobs access to quality health care and education and fair and equitable housing veterans learn that when their military service is done they are now fighting a new battle a failed bureaucracy which has let them and other veterans down for the past 100 years It s not as if we as a nation haven t tried The Veterans Health Administration VHA has seen the largest increase in funding in its history and has been given several free passes when the budget axe arrives Federal funding and grants for education have also enjoyed similar financial favor and housing opportunities have been increased Yet on a rudimentary level we as a nation cannot stop believing that GI Joe and Jane can t wait to come back home and pick up right where they left off before their military service began The truth is that person is gone and is not coming back After months or years in a highly structured organizational environment often times with deployments and horrific battlefield experiences the military veteran has undergone a paradigm shift in their thinking their character and in the way they view themselves and others Advances in medical triage and transport have saved thousands of men and women who in previous wars who would have died on the battlefield and new prosthetics and treatment strategies for those with invisible wounds have helped many But an overburdened VHA isn t prepared to provide for the sheer volumes of veterans that return home And with veteran unemployment rates traditionally running percentage points higher than their civilian counterparts America still wonders why Many veterans particularly those with PTSD are lost when returning home *Moving Past PTSD Consciousness Understanding and Appreciation for Military Veterans and Their Families* hopes to break this cycle In their own words veterans caregivers and the family members that love them are given the opportunity to tell us what is truly broken in the military to civilian transition Advances in clinical treatments the presentation of a new fast track job training program and new awareness for the challenges facing all military veterans changes our way of understanding of who the 21st century veteran is Through this understanding we can change their lives and they can change ours     **The Book of Insistence** Vasile Munteanu,2012-05 The book is a collection of poems dealing with various themes emotions and mental states the overarching unifying idea being regret Regret tends to incorporate both things we wish we had done and things we wish we hadn t done always with an eye toward not repeating the same mistakes But time has a way of bringing us back to both scenarios often against our will and better judgment Yet the need to revisit the past remains a very strong impetus in our memory regardless of our desires The poems aspire to highlight this tendency Vasile Munteanu earned a B A and an M A
