What is Poetry? Nigel Fabb,2015 Poetry defined as language divided into lines is found in most known human cultures This masterful survey of poetry and its constituent components demonstrates the functions performed by metre rhyme alliteration and parallelism arguing that each line of a poem fits as a whole unit into the limited capacity of human working memory Using examples from around the world

Fabb surveys the wide varieties of poetry and the ways they are performed including those in songs and signed literatures Focusing on language form and memory he argues helps us understand why poetry is a particularly valued way of using language A fresh exploration of poetry the book will be welcomed by students and researchers of literature linguistics and psychology as well as anyone interested in poetry

The Song in the Night Bob MacDonald, 2016-11-11 Did you know that there is a musical score embedded in the Hebrew Bible The Song in the Night presents this astonishing fact Experts have argued over what the music is for over 1000 years Now you can examine the key to the music and imagine how the whole song might sound You can see clearly how the accents in the text translate into music and marvel how our ancestors designed this elegant insight to the tone of voice that is still there in the Bible How valuable it is to hear the Word of the Most High with its tone of voice and realize that it is not the same voice that we have imagined It is of course a voice of kindness a voice of truth a voice of love and a voice of grief calling all creation into everlasting praise

Poetry in English and Metal Music Arturo Mora-Rioja, 2023-05-05 Many metal songs incorporate poetry into their lyrics using a broad array of techniques both textual and musical This book develops a novel adaptation appropriation and quotation taxonomy that both expands our knowledge of how poetry is used in metal music and is useful for scholars across adaptation studies broadly The text follows both a quantitative and a qualitative approach It identifies 384 metal songs by 224 bands with intertextual ties to 146 poems written by fifty one different poets with a special focus on Edgar Allan Poe John Milton s Paradise Lost and the work of WWI s War Poets This analysis of transformational mechanisms allows poetry to find an afterlife in the form of metal songs and sheds light on both the adaptation and appropriation process and on the semantic shifts occasioned by the

recontextualisation of the poems into the metal music culture Some musicians reuse and sometimes amplify old verses related to politics and religion in our present times others engage in criticism or simple contradiction In some cases the bands turn the abstract feelings evoked by the poems into concrete personal experiences The most adventurous recraft the original verses by changing the point of view of either the poetic voice or the addressed actors altering the vocaliser of the narrative or the gender of the protagonists These mechanisms help metal musicians make the poems their own and adjust them to their artistic needs so that the resulting product is consistent with the expectations of the metal music culture

Poetry, Catastrophe, and Hope in the Vision of Isaiah Francis Landy, 2023-06-21 The book of Isaiah is one of the longest and strangest books of the Hebrew Bible composed over several centuries and traversing the catastrophe that befell the two kingdoms of Israel and Judah in the 8th and 6th centuries BCE Francis Landy's book tells the story of the poetic response to catastrophe and the hope for a new and perfect world on the other side The study traces two parallel developments the displacement of the Davidic promise onto the Persian Empire Israel and the prophet himself and the transition from exclusively male images of the deity to the matching of male and female prototypes whereby YHWH takes the place of the warrior goddess Poetry Catastrophe and Hope in the Book of Isaiah consists of close readings of individual passages in Isaiah commencing with Chapter One and the problems of beginning and ending with Deutero Isaiah composed subsequent to the Babylonian exile The volume is arranged thematically as well as sequentially the first chapter following the introduction concerns gender the second death the third the Oracles about the Nations At the centre there is what Landy calls the constitutive enigma Isaiah's commission in his vision to speak so that people will not understand This renders the entire book potentially incomprehensible the more we try to understand it the greater the difficulty For Landy this creates a model of reading and writing the challenge and the risk of going up blind alleys of trying to make sense of a disastrous world Isaiah's commission pervades the book Throughout there is a promise of an age of clarity as well as social and political transformation which is always deferred beyond the horizon Hence it is a book without an ending or with multiple endings In the final chapters the author turns to the central Chapter Thirty Three a *mise en abyme* of the book and a prayer for deliverance and the issues of exile and the possibility of return Like every poetic work particularly in an era of cultural collapse it is a critique of the past and a hope for a new humanity

The Contemporary Literature-Music Relationship

Hazel Smith, 2016-04-20 This book explores the relationship between words and music in contemporary texts examining in particular the way that new technologies are changing the literature music relationship It brings an eclectic and novel range of interdisciplinary theories to the area of music literary studies drawing from the fields of semiotics disability studies musicology psychoanalysis music psychology emotion and affect theory new media cosmopolitanism globalization ethnicity and biraciality Chapters range from critical analyses of the representation of music and the musical profession in contemporary novels to examination of the forms and cultural meanings of contemporary intermedia and multimedia works

The book argues that conjunctions between words and music create emergent structures and meanings that can facilitate culturally transgressive and boundary interrogating effects In particular it conceptualises ways in which word music relationships can facilitate cross cultural exchange as musico literary miscegenation using interracial sexual relationships as a metaphor Smith also inspects the dynamics of improvisation and composition and the different ways they intersect with performance Furthermore the book explores the huge changes that computer based real time algorithmic text and music generation are making to the literature music nexus This volume provides fascinating insight into the relationship between literature and music and will be of interest to those fields as well as New Media and Performance Studies **English**
