Healey, Andi Stepnick, 2019-07-04 Adapted from the bestselling Race Ethnicity Gender and Class by Joseph F Healey and Andi Stepnick Diversity and Society provides a brief overview of inter group relations in the U S In ten succinct chapters Healey and Stepnick explain concepts and theories about dominant minority relations examine historical and contemporary immigration to the U S and narrate the experiences of the largest racial and ethnic minorities The Sixth Edition of this bestseller explores a variety of experiences within groups paying particular attention to the intersection of gender with race and ethnicity While the focus is on minority groups in the U S the text also includes comparative cross national coverage of group relations in other societies Updated with the most current trends and patterns in inter group relations this text presents empirical data in an accessible format to show you how minorities are inseparable from the larger American experience **South Africa's Post-Apartheid Military** Lindy Heinecken, 2020-01-01 This timely book examines

how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged. HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

Proceedings of the Twelfth International Symposium on Human Aspects of Information Security & Assurance (HAISA 2018) Nathan Clarke, Steven Furnell, 2018-09-09. The Human Aspects of Information Security and Assurance HAISA symposium specifically addresses information security issues that relate to people. It concerns the methods that inform and guide users' understanding of security and the technologies that can benefit and support them in achieving protection. This book represents the proceedings from the 2018 event which was held in Dundee, Scotland, UK. A total of 24 reviewed papers are included, spanning a range of topics including the communication of risks to end users, user-centred security in system development and technology impacts upon personal privacy. All of the papers were subject to double-blind peer review with each being reviewed by at least two members of the international programme committee.

ECCWS 2019 18th European Conference on Cyber Warfare and Security Tiago Cruz, Paulo Simoes, 2019-07-04. Militarised Responses to Transnational Organised Crime Tuesday Reitano, Sasha Jespersen, Lucia Bird Ruiz-Benitez de Lugo, 2017-10-06. This edited volume examines the use of militarised responses to different forms of criminal activity, discussing the outcomes and unintended consequences. Politicians and policymakers frequently use militarised responses to look tough on crime. The deployment of armies, navies, military assets and militarised approaches can send a powerful message but have produced mixed results. While they generate the perception that governments are actively engaged on issues of concern to the public and in some cases have resulted in notable successes, on the downside they have frequently also increased the loss of life, exacerbated the humanitarian consequences of a particular crime and entrenched divides between security and state institutions and the criminal proponents, narrowing the possibilities for future negotiated solutions. By focusing on four different areas of criminality: wildlife crime, piracy, migration and drug trafficking, the book allows context and evidence-based conclusions to be drawn on the strategic value and commonality of responses and their

outcomes Air Power in the Indian Ocean and the Western Pacific Howard M. Hensel, 2020-06-04 This book examines the security dynamics of the Indian Ocean and the Western Pacific concentrating upon an analysis and evaluation of the air power capabilities of the various powers active in the two regions The volume is designed to help improve understanding of the heritage and contemporary challenges confronting the global community in the Indian Ocean and the Western Pacific as well as to illuminate the policies of the various powers involved in the affairs of these regions and the military capabilities that are available in support of those policies The 16 individual chapters examine both the traditional and the non traditional threats that confront the various Indian Ocean and Western Pacific powers and assess the roles played by land based and naval fixed wing and rotary wing manned and unmanned aircraft as well as by offensively and defensively capable ballistic and cruise missiles in addressing these challenges In doing so the various chapters analyze and evaluate the air power doctrine capabilities deployment patterns and missions of the respective states In addition they assess the future issues challenges and responses involving air power as it acting in concert with other military instruments seeks to contribute to securing and promoting the interests of the state This book will be of much interest to students of air power strategic studies Asian and Middle Eastern politics and International Relations **E-Collaboration Technologies and Strategies for**

Competitive Advantage Amid Challenging Times Zhao, Jingyuan, Richards, Joseph, 2021-06-11 E collaboration is a tool that breaks the boundaries of activities within and between organizations E collaboration technologies are making it easier than ever for people to work together no matter where they happen to be Succeeding with collaboration at a level where it represents a competitive advantage requires a broad approach Internal social networks can circumvent bureaucratic boundaries and facilitate information sharing activities among individuals across hierarchies and divisions or departments This allows organizations to acquire resources or competencies from external sources that otherwise would be difficult or expensive to access Accordingly organizations focus more on their own areas of competence and gain a competitive advantage by acquiring richer content and better solutions in a creative and cost effective way Challenging times can provide new opportunities that need to be detected at the right time There must be many other sources of competitive advantages which should support the main source of competitive value Competitive advantage may be gained if the organization is able to find sources of competitive advantage in time of economic crises Organizations have rapidly deployed technology solutions such as collaboration tools and cloud computing which enable their employees to work remotely and continue these organizational operations especially during times of crisis E Collaboration Technologies and Strategies for Competitive Advantage Amid Challenging Times focuses on e collaboration technologies strategies and solutions from a perspective of organizational competitive advantage including e collaboration technologies situation and solutions innovation systems competition and strategies marketing and growth capabilities The book presents a full understanding on e collaboration technologies strategies and solutions in organizations and provides insight for how to develop e collaboration technologies

strategies and solutions more generally so as to simultaneously leverage potential benefit and guard against potential risk promoting organizational competitive advantage amid challenging times This book is ideally intended for policymakers government officials corporate heads of firms managers managing directors practitioners researchers academicians and students seeking information on the e collaboration technologies being employed in businesses in times of crisis

Race, Ethnicity, Gender, and Class Joseph F. Healey, Andi Stepnick, 2023-01-12 Known for its clear and engaging writing the bestselling *Race Ethnicity Gender and Class The Sociology of Group Conflict and Change* has been thoroughly updated to be fresher more relevant and more accessible to undergraduates The text uses sociological perspectives and a consistent conceptual framework to tell the story of America's minority groups today and throughout history By presenting information asking questions and examining controversies it demonstrates that understanding what it means to be an American has always required us to grapple with issues of diversity and difference This title is accompanied by a complete teaching and learning package

Morris, The Civil War in the West 1863 by Andrew N Morris is the latest addition to the Center of Military History's U S Army Campaigns of the Civil War series In 1863 Union and Confederate forces fought for control of Chattanooga a key rail center The Confederates were victorious at nearby Chickamauga in September However renewed fighting in Chattanooga that November provided Union troops a victory control of the city and drove the Confederates south into Georgia The Union success left its armies poised to invade the Deep South the following year *The Palgrave Handbook of Peacebuilding in Africa* Tony Karbo, Kudrat Virk, 2018-01-30 This handbook offers a critical assessment of the African agenda for conflict prevention peacemaking peacekeeping and peacebuilding the challenges and opportunities facing Africa's regional organisations in their efforts towards building sustainable peace on the continent and the role of external actors including the United Nations Britain France and South Asian troop contributing countries In so doing it revisits the late Ali Mazrui's concept of Pax Africana calling on Africans to take responsibility for peace and security on their own continent The creation of the African Union in 2002 was an important step towards realising this ambition and has led to the development of a new continental architecture for more robust conflict management But as the volume's authors show the quest for Pax Africana faces challenges Combining thematic analyses and case studies this book will be of interest to both scholars and policymakers working on peace security and governance issues in Africa **Panic City** Martin J. Murray, 2020-03-10 Despite the end of white minority rule and the transition to parliamentary democracy Johannesburg remains haunted by its tortured history of racial segregation and burdened by enduring inequalities in income opportunities for stable work and access to decent housing Under these circumstances Johannesburg has become one of the most dangerous cities in the world where the yawning gap between the

haves and have nots has fueled a turn toward redistribution through crime. While wealthy residents have retreated into heavily fortified gated communities and upscale security estates, the less affluent have sought refuge in retrofitting their private homes into safe houses, closing off public streets and hiring the services of private security companies to protect their suburban neighborhoods. *Panic City* is an exploration of urban fear and its impact on the city's evolving siege architecture, the transformation of policing and obsession with security that has fueled unprecedented private consumption of protection services. Martin Murray analyzes the symbiotic relationship between public law enforcement agencies, private security companies, and neighborhood associations wherein buyers and sellers of security have reinvented ways of maintaining outdated segregation practices that define the urban poor as suspects.

Handbook of the Sociology of the Military
Giuseppe Caforio, Marina Nuciari, 2018-05-19 This new edition of the volume is presented on the wave of the success which had its first edition 2003. It is entirely updated to the current situation of the disciplines covered and expanded with particular regard to the new missions that have become the main challenge for the armed forces in these first decades of the new millennium with new insights to technological development toward so-called cyborg warriors, new forms of leadership and changes in soldiers' identity and organisational culture. It is compiled of documents coming from various researchers at universities around the world as well as military officers devoted to the sector of study. Covered in this volume is a historical excursus of studies prior to contemporary research, interpretive models and theoretical approaches developed specifically for this topic: civic-military relations including issues surrounding democratic control of the armed forces, military culture, professional training conditions and problems of minorities in the armed forces, an examination of the structural change within the military over the years including new duties and functions following the Cold War.

The Economics of Defense Industry Thomas-Durell Young, 2023-10-17 This book on the economics of defence industry assesses a series of historical and contemporary case studies that consistently demonstrate the need for governments to recognise and thereafter factor the financial needs of a narrow industrial sector that is capital intensive, technologically advanced and that requires a highly skilled labour force. Since the end of the cold war, Western governments have systematically reduced financial support to their domestic defence industry and have seemingly ignored planning and funding industrial mobilisation. In all cases, government policy has been to encourage industries to consolidate capacity to become financially viable in a sector that has seen diminished demand. The 2022 Russian invasion of Ukraine has caused Western governments to reassess their previous assumptions. Efforts to increase industrial capacity have been met with the iron laws of economics whereby businesses need to show return on investments. The chapters in this volume posit that efforts to rationalise industrial capacity and innovation to meet short-term financial efficiencies inevitably results in limited expensive and long delays in increased production in times of international crisis. This book serves as an essential guide for academics, researchers and students interested in defence economics, industrial economics, international relations and industrial policy. The chapters in this book were originally

published in various issues of Defense Security Analysis **Foreign Policy in Post-Apartheid South Africa** Adekeye Adebajo, Kudrat Virk, 2017-12-18 South Africa is the most industrialized power in Africa It was rated the continent's largest economy in 2016 and is the only African member of the G20 It is also the only strategic partner of the EU in Africa Yet despite being so strategically and economically significant there is little scholarship that focuses on South Africa as a regional hegemon This book provides the first comprehensive assessment of South Africa's post Apartheid foreign policy Over its 23 chapters and with contributions from established Africa Western Asian and American scholars as well as diplomats and analysts the book examines the current pattern of the country's foreign relations in impressive detail The geographic and thematic coverage is extensive including chapters on the domestic imperatives of South Africa's foreign policy peace making defence and security bilateral relations in Southern Central West Eastern and North Africa bilateral relations with the US China Britain France and Japan the country's key external multilateral relations with the UN the BRICS economic grouping the African Caribbean and Pacific Group ACP as well as the EU and the World Trade Organization WTO An essential resource for researchers the book will be relevant to the fields of area studies foreign policy history international relations international law security studies political economy and development studies **Narrative Psychology and Vygotsky in Dialogue** Jill Bradbury, 2019-09-06 This book draws together two domains of psychological theory Vygotsky's cultural historical theory of cognition and narrative theories of identity to offer a way of rethinking the human subject as embodied relational and temporal A dialogue between these two ostensibly disparate and contested theoretical trajectories provides a new vantage point from which to explore questions of personal and political change In a world of deepening inequalities and increasing economic precarity the demand for free decolonised quality education as articulated by the South African Student Movement and in many other contexts around the world is disrupting established institutional practices and reinvigorating possibilities for change This context provokes new lines of hopeful thought and critical reflection on discontinuities across historical time theories of social and psychological developmental processes and the practices of intergenerational life particularly in the domain of education for the making of emancipatory futures This is essential reading for academics and students interested in Vygotskian and narrative theory and critical psychology as well as those interested in the politics and praxis of higher education
