**Mobility and Identity in US Genre Painting** Lacey Baradel, 2020-12-30 This book examines the

portrayal of themes of boundary crossing itinerancy relocation and displacement in US genre paintings during the second half of the long nineteenth century c 1860 1910 Through four diachronic case studies the book reveals how the high stakes politics of mobility and identity during this period informed the production and reception of works of art by Eastman Johnson 1824 1906 Enoch Wood Perry Jr 1831 1915 Thomas Hovenden 1840 95 and John Sloan 1871 1951 It also complicates art history s canonical understandings of genre painting as a category that seeks to reinforce social hierarchies and emphasize more rooted connections to place by instead privileging portrayals of social flux and geographic instability The book will be of interest to scholars working in art history literature American studies and cultural geography *To Govern the Globe* Alfred W. McCoy, 2021-11-16 In a tempestuous narrative that sweeps across five continents and seven centuries this book explains how a succession of catastrophes from the devastating Black Death of 1350 through the coming climate crisis of 2050 has produced a relentless succession of rising empires and fading world orders During the long centuries of Iberian and British imperial rule the quest for new forms of energy led to the development of the colonial sugar plantation as a uniquely profitable kind of commerce In a time when issues of race and social justice have arisen with pressing urgency the book explains how the plantation s extraordinary profitability relied on a production system that literally worked the slaves to death creating an insatiable appetite for new captives that made the African slave trade a central feature of modern capitalism for over four centuries After surveying past centuries roiled by imperial wars national revolutions and the struggle for human rights the closing chapters use those hard won insights to peer through the present and into the future By rendering often opaque environmental science in lucid prose the book explains how climate change and changing world orders will shape the life opportunities for younger generations born at the start of this century during the coming decades that will serve as the signposts of their lives 2030 2050 2070 and beyond Contested Valor Cameron D. McCoy, 2023-11-16 *Contested Valor* is a challenging examination of the use and status of black Marines in United States military service during the Cold War era These pioneering men experienced contested military integration as well as multiple forms of institutional and social opposition which called their humanity manhood and rights to full citizenship into question Efforts to undermine their service compromised their right to be counted among the elite and sidelined their story to the fringes of Marine Corps and U S history Cameron McCoy describes the factors and pressures leading to the racial turbulence that surfaced in the Marine Corps from the end of World War II through Vietnam and the measures taken by civilian and Marine officials to maintain and restore organizational integrity based on a foundation of white supremacy He examines the psychological effects of institutionalized racism on African American Marines during the Vietnam era and the emergence of a new generation of black men unwilling to submit to the traditions of a Jim Crow Marine Corps By exploring the realities American society constructed about black Marines this work calls attention to the diverse ways in which these men coped within a strict prejudiced organization and found greater purpose as U S Marines despite an embattled image *Contested Valor* weaves

the experiences of black Americans in the armed forces into the larger tapestry of the American racist past and aptly captures the dilemmas triumphs and pitfalls that the first African American Marines encountered during the contentious eras of World War II Korea and Vietnam McCoy explores the creation of organizational policies designed to minimize their footprint as U S Marines until the social experiment of military integration faded and illustrates the discriminatory practices that further delegitimized their wartime reputation McCoy demonstrates that black Marines absence from the historical record has been compounded by the negligence and oversight of past historians as the Marine Corps reckons with its racist past and its first black Marines
