Service, *Revisiting Integrated Water Resources Management* Cecilia Tortajada, 2017-10-02 The book includes seventeen excellent researched and documented papers that reflect the diversity of thought ideas and experiences related to IWRM. They draw from an extensive inclusive and geographically representative range of theoretical propositions and practical examples. These include the implementation status of the IWRM concept at local basin regional and national levels its appropriateness for the twenty first century main implementation gaps from the institutional legal policy governance management and technical viewpoints the likelihood that IWRM's entrenchment in laws regulations and policies has led to smoother implementation and the reasons why that has been the case reflexions on whether the attention given to IWRM is pushing other alternatives to the policy periphery and the new conceptual constructions that can be put forward for discussion in the international arena. For the development and water communities it is imperative to debate and reach towards more illustrative conclusions regarding whether the promotion of the IWRM concept and its actual implementation status have been beneficial for development and how the notion could evolve to achieve this end. In depth objective and constructive discussions arguments proposals and ideas are put forward for analysis by all interested parties. The book has the objective of fostering scholarly exchange encouraging intellectual debate and promoting the advancement of knowledge and understanding of IWRM as a concept as a goal per se and as a strategy towards development goals. This book was published as a special issue of the International Journal of Water Resources Development. *Handbook of Active Ageing and Quality of Life* Fermina Rojo-Pérez, Gloria Fernández-Mayoralas, 2021-04-12 This handbook presents an overview of studies on the relationship of active ageing and quality of life.
