**Capacity Building for Maritime Security** Christian Bueger, Timothy Edmunds, Robert McCabe, 2020-10-09 This book studies recent attempts to restructure maritime security sectors through capacity building It innovates both theoretically and empirically It proposes a new framework for understanding maritime capacity building drawing on work in peacebuilding and security sector reform The framework is then applied across empirical case studies from the Western Indian Ocean WIO region written by scholars from the Global South The WIO region is a paradigmatic case to study maritime security and capacity building in action Countries in the region face the full gamut of maritime security challenges while their indigenous capacities to deal with these are often weak In consequence the region functions as an engine of innovation for maritime capacity building more widely The lessons and best practices from the region have importance consequences for addressing maritime security across the globe      **South Africa's Defence Industry** Greg Mills, Martin Edmonds, 2001      **General Jan**

**Smuts And his First World War in Africa (1914-19-17)** David Brock Katz,2022-08-24 An engaging well written and meticulously researched military biography Tim Stapleton Professor Department of History University of Calgary Jan Smuts grabbed the opportunity to realise his ambition of a Greater South Africa when the First World War ushered in a final scramble for Africa He set his sights firmly northward upon the German colonies of South West Africa and East Africa Smuts s abilities as a general have been much denigrated by his contemporaries and later historians but he was no armchair soldier He first learned his soldier s craft under General Koos de la Rey and General Louis Botha during the South African War 1899 1902 He emerged from that conflict immersed in Boer manoeuvre doctrine After forming the Union Defence Force in 1912 Smuts played an integral part in the German South West African campaign in 1915 Placed in command of the Allied forces in East Africa in 1916 he led a mixed bag of South Africans and imperial troops against the legendary Paul von Lettow Vorbeck and his Schutztruppen His penchant for manoeuvre warfare and mounted infantry freed most of the vast German territory from Lettow Vorbeck s grip General Jan Smuts and his First World War in Africa provides a long overdue reassessment of Smuts s generalship and his role in furthering the strategic aims of South Africa and the British Empire during this era

*Global Challenges in Maritime Security* Lisa Otto,2020-04-21 From pirates to smugglers migrants to hackers from stolen fish to smuggled drugs the sea is becoming a place of increasing importance on the global agenda as criminals use it as a theatre to conduct their crimes unfettered This volume sets out to provide an introduction to the key issues of pertinence in Maritime Security today It demonstrates why the sea is a space of great strategic importance and how threats to security at sea have a real impact for people around the world It examines an array of challenges and threats to security playing out at sea including illegal unreported and unregulated fishing irregular migration piracy smuggling of illicit goods and cyber security while also looking at some of the mechanism and role players involved in addressing these perils Each chapter provides an overview of the issue it discusses and provides a brief case study to illustrate how this issue is playing out in real life This book thus allows readers an insight into this evolving multidisciplinary field of study As such it makes for an informative read for academics and practitioners alike as well as policymakers and students offering a well rounded introduction of the main issues in current Maritime Security

*Parameters* ,2016 **Space Warfare** John J. Klein,2024-09-18 This book examines military space strategy within the context of the land and naval strategies of the past This second edition has been updated and revised with several new chapters included The book examines competition and conflict in the space domain including the methods used and sound counterstrategies to thwart a competitor s efforts Contrary to many spacepower pundits the book explains that neither is the

space domain inherently offense dominant nor is there a first mover advantage when incorporating a sound space strategy. Offering new insights into the nature of strategic competition in space, this second edition leans heavily on the British maritime experience and the work of Julian Corbett to provide a strategic framework for understanding competition, crisis, and conflict in the space domain. It also includes important concepts from leading theorists and strategists, both past and present, to amplify concepts and provide additional insights into the functioning of space strategy. The book provides a foundational framework by underscoring that space strategy is shaped by the fundamental nature of all warfare, along with the universal principles of strategy and the essential unity of all strategic experience. Warfare is warfare, no matter the domain of operations, and consequently policymakers and military leaders can look to historical experience and knowledge of past strategic frameworks to help gain insights into the functioning of space warfare. This book will appeal to students of spacepower, defense, and strategic studies, and International Relations.

**Army of None** Paul Scharre, 2018-04-24 Winner of the 2019 William E. Colby Award. The book I had been waiting for. I can't recommend it highly enough. Bill Gates: "The era of autonomous weapons has arrived. Today, around the globe, at least thirty nations have weapons that can search for and destroy enemy targets all on their own." Paul Scharre, a leading expert in next-generation warfare, describes these and other high-tech weapons systems, from Israel's Harpy drone to the American submarine-hunting robot ship Sea Hunter, and examines the legal and ethical issues surrounding their use. A smart primer to what's to come in warfare. Bruce Schneier: "Army of None engages military history, global policy, and cutting-edge science to explore the implications of giving weapons the freedom to make life-and-death decisions." A former soldier himself, Scharre argues that we must embrace technology where it can make war more precise and humane, but when the choice is life or death, there is no replacement for the human heart.
