

Spanish-American War

Introduction

The history of Spanish-American war goes back to 1895, when Cuba wanted independence from Spain. While thousands of Spanish troops were sent to this Caribbean island, to curb the revolt, America watched the developments with enhanced interest. As the diplomatic efforts from American presidents proved futile for declaring a cease fire in this rebellion, America decided to intervene militarily, with President William McKinley favoring American action for releasing Cubans from Spanish possession, in April 1898. This followed with the full-fledged war between USA and Spain, in which America went beyond Cuba, and captured other Spanish colonies that included Puerto Rico and Guam.

The war went smoothly for the Americans and proved devastating for the Spanish, which suffered defeat continuously. Although several drawbacks have been observed in the American military preparedness for this war, the same has been classified as "splendid war of short duration" by historians, even from outside America. Historian Harry Allen has described this event as "America's swift and total defeat of Spain" (1). Due to lack of coordination between different wings of American defense forces, rivalry was visible between sailors and soldiers, while the war resulted in the charges of imperialism being levied against America, which still haunts the people of Cuba and Philippines.
