Communicative Understandings of Women's Leadership Development Elesha L. Ruminski, Annette Holba, 2012-01-01 *Communicative Understandings of Women's Leadership Development From Ceilings of Glass to Labyrinth Paths* edited by Elesha L Ruminski and Annette M Holba intertwines the disciplines of communication studies leadership studies and women's studies to offer theoretical and practical reflection about women's leadership development in academic organizational and political contexts Women's leadership development exists at the intersection of consciousness raising communication competence and education to increase one's knowledge and practice of leadership which makes the weaving together of these three disciplines important Thus *Communicative Understandings of Women's Leadership Development* claims a space for women's leadership studies and acknowledges the paradigmatic shift from discussing women's leadership using the glass ceiling phenomenon to what Eagly and Carli 2007 identify as the labyrinth of leadership Recognizing this metaphoric shift is crucial because many women now develop leadership amid the postmodern flux of organizational change hierarchical top down systems are being eroded in lieu of transformational collaborative even improvisational leadership processes Women's leadership studies is emerging as a fruitful interdisciplinary area that reframes the debate about whether we live work and learn within a third wave feminist or post feminist context While this area might include feminist theorizing it also might not emphasize such epistemologies For this reason Ruminski and Holba's edited collection explores and highlights a variety of feminist and non feminist intersections and is thus an important and timely contribution to both marking where we are with women's leadership development in higher education and how women can further develop themselves as leaders *Social Work and Integration in Immigrant Communities* Kathleen Valtonen, 2016-03-03 There has been a marked rise in global migration with many former countries of emigration becoming immigration destinations As a result of this social workers increasingly encounter immigrant clients and are called upon to work in their communities At the same time in the field of research theories conceptual frames perspectives and discourse have materialized and evolved to make sense of contemporary events Social work professionals researchers and students must therefore need to be apprised of current

thinking research and discourse in the field of integration Valtonen familiarizes the reader with the variation in national policies institutional arrangements and service responses which all provide rich contrasts and insights into a breadth of policy possibilities Since macro level developments in migration carry direct implications for social work as a discipline and a profession with a central stake and role in immigrant wellbeing this book provides salient information to help with visioning in the profession defining appropriate and concerted responses and building robust standing in the field as well as promoting the linking of disciplinary and multidisciplinary research with practice

The Way to Love Matt Boswell, 2018-09-04 Love people. An oft-proclaimed rallying cry for Christians, but what does it look like in practice to love? We may believe that love is the greatest. 1 Cor 13:13 Love may be our destination. But do we know how to get there? This book addresses essential questions about the Christian life: What is a true, compelling, and helpful Christian understanding of love? What is spiritual growth supposed to do to us or for us or for others through us? How can we speak of grace and personal initiative in one theological vision? How do we go beyond a spirituality that is either too privatized and insular or too activist without the undergirding character needed to sustain such activism? How do we ensure love is not simply a principle we hold or a slogan we applaud but a powerful force that perpetually grows in us and ripples out to others in concrete, transformative ways? This book is a guide to love. Drawing on virtue ethics, psychology, theology, and spirituality, it offers a love-centered, hopeful vision of the Christian spiritual life. The story in which God invites us to live is about a journey of love toward love. Is this your story?

Today more than ever, we need their words and their wisdom. In this revised edition, Paul Rogat Loeb has comprehensively updated this classic work on
