Spanish 1 Realidades On Greetings:

Plataformas, consumo mediático y nuevas realidades digitales. Hacia una perspectiva integradora. José María Valero Pastor, 2021-11-15 La industria de la comunicación en sus numerosas ramificaciones ha experimentado una gran mutación a lo largo de la última década. La vorágine de cambios que desencaden Internet sucedido por las plataformas sociales y por dispositivos que han modificado por completo los hábitos de consumo como el smartphone han provocado una tensión constante entre los medios de comunicación y las plataformas por conseguir y retener la atención de los usuarios a pesar de que se trata de una relación ambivalente porque los primeros se sirven de estos lugares de encuentro digitales para llegar a los usuarios. Existen centenares de publicaciones científicas y divulgativas que han abordado esta realidad desde todo tipo de puntos de vista tanto teóricos como prácticos y un análisis por la evolución de este cambio de estudio evidencia que tras la disrupción de principios de siglo el sector se encuentra ya en una fase de consolidación que lejos de ser estable conlleva la aparición continua de nuevos hábitos de consumo. Existen pocas certezas en el mercado y una de ellas es precisamente el cambio.
