

FLACS CHECKPOINT B EXAMINATION SPANISH

Monday, June 22, 2015 – 1:15 to 2:15 p.m.
(early start) – 2:15 p.m.
(normal release time) – 3:00 p.m.)

General Directions:

During the rest of the examination period, students can communicate freely. Now up to each student: dole out student materials, distribute student directions, and as thought as instructions. Distribute materials all in the testing center/room at the same time.

After each student has filled in the testing at the same time, begin the examination by following the directions for Part I as given below.

Directions for Part I:

Students should be given their test materials and read the directions for Part I. After students have read and understood the directions, begin providing them with the FLACS audio, beginning with the following:

There are some questions in Part I. Each question is based on a short passage, which will be read aloud to you. Listen carefully. Below each passage, and with some background information in English notes. There are also some questions in Spanish notes. After you have heard the passage for the first time, you will hear the questions in English notes. The questions are also printed on your test booklet. After you have heard the questions, you will hear them again, slowly, so you can listen carefully. During this time, read the questions and the four suggested answers in your test booklet. Choose the best suggested answer on the basis of the information provided in the passage and write in Spanish in the space provided. Some answer choices are written in Spanish and some are written in English. Write only one answer for each question. Do not write any other information on your booklet. It is recommended that you write the answer in Spanish.

Incompetence is not an objective state lacking competence nor a kind of deficiency that needs to be filled Rather it is a constructed state that is productive working in tandem with its opposite competence Perception of incompetence competence works as what Michel Foucault 1977 calls a technology of normalization that pushes individuals to aspire to follow a shared norm while hierarchically differentiating individuals according to their proximity to the aspired norm The notion of incompetence is thus productive in that it turns individuals into specific kinds of subjects Foucault 1977 The Politics of Incompetence Learning Language Relations of Power and Daily Resistance further investigates other productive processes around the perception of incompetence specifically through its intersections with various ideologies academic achievement teacher student hierarchy native speaker ideology normative unit thinking and privilege of vulnerability as such intersections generate new knowledge new reflection on one s assumptions and privilege new space for marginalized language and more This volume opens up a new area of study productive cultural politics of incompetence by focusing on language learning in diverse contexts Japanese as a Foreign Language classrooms in US colleges Italian language tourism in Italy and indigenous Mori language revitalization at an Aotearoa New Zealand school **Risk and Reliability in Geotechnical Engineering**

Kok-Kwang Phoon, Jianye Ching, 2018-10-09 Establishes Geotechnical Reliability as Fundamentally Distinct from Structural Reliability Reliability based design is relatively well established in structural design Its use is less mature in geotechnical design but there is a steady progression towards reliability based design as seen in the inclusion of a new Annex D on Reliability of Geotechnical Structures in the third edition of ISO 2394 Reliability based design can be viewed as a simplified form of risk based design where different consequences of failure are implicitly covered by the adoption of different target reliability indices Explicit risk management methodologies are required for large geotechnical systems where soil and loading conditions are too varied to be conveniently slotted into a few reliability classes typically three and an associated simple discrete tier of target reliability indices Provides Realistic Practical Guidance Risk and Reliability in Geotechnical Engineering makes these reliability and risk methodologies more accessible to practitioners and researchers by presenting soil statistics which are necessary inputs by explaining how calculations can be carried out using simple tools and by presenting illustrative or actual examples showcasing the benefits and limitations of these methodologies With contributions from a broad international group of authors this text Presents probabilistic models suited for soil parameters Provides easy to use Excel based methods for reliability analysis Connects reliability analysis to design codes including LRFD and Eurocode 7 Maximizes value of information using Bayesian updating Contains efficient reliability analysis methods Accessible To a Wide Audience Risk and Reliability in Geotechnical Engineering presents all the need to know information for a non specialist to calculate and interpret the reliability index and risk of geotechnical structures in a realistic and robust way It suits engineers researchers and students who are interested in the practical outcomes of reliability and risk analyses without going into the intricacies of the underlying mathematical theories **Jim Morrison & The Doors Concerts, Rehearsals, Videos and Songs 1965 - 1972** Marco Durzu, 2025-08-07 This book is dedicated to and wants to honor the MUSIC of JIM MORRISON Complete list of Jim Morrison Added for completeness of information are the songs that Jim Morrison 26 07 1997 17 09 2008 to 01 10 2012 86 Shows Statistical Table relating to all the information reported in this book I want to thank with my heart and soul Jim Morrison The Doors like Jim said I m the Lizard King I can do everything Enjoy reading Edition 1 1
