It is the official or semi-official language in more than 60 countries and of many international organizations. The International Olympic Committee, for example, always holds meeting in English. English helps the international community and the business world to communicate across national borders. Today, more than 80% of all the information in the world's computers is in English. So, organizations frequently need employees, who speak and write a standard form of English. In fact, some companies provide English language training for their staff. Many believe now that English usually helps them to get good jobs and better salaries.
