St Paul School Report Cards:

Report Cards Wade H. Morris, 2023-09-26 The definitive history of the report card Report cards represent more than just an account of academic standing and attendance The report card also serves as a tool of control and as a microcosm for the shifting power dynamics among teachers parents school administrators and students In Report Cards A Cultural History Wade H Morris tells the story of American education by examining the history of this unique element of student life In the nearly two hundred year evolution of the report card this relic of academic bookkeeping reflected broader trends in the United States the republican zealotry and religious fervor of the antebellum period the failed promises of postwar Reconstruction for the formerly enslaved the changing gender roles in newly urbanized cities the overreach of the Progressive child saving movement in the early twentieth century and by the 1930s the increasing faith in an academic meritocracy The use of report cards expanded with the growth of school bureaucracies becoming a tool through which administrators could surveil both student activity and teachers And by the late twentieth century even the most radical critics of numerical reporting of children have had to compromise their ideals Morris traces the evolution of how teachers students parents and administrators have historically responded to report cards From a western New York classroom teacher in the 1830s and a Georgia student in the 1870s who was born enslaved to a Colorado student incarcerated in the early 1900s and the son of Russian Jewish immigrants applying to college in the 1930s Report Cards describes how generations of people have struggled to maintain dignity within a system that reduces children to numbers on slips of paper

Developing Standards-Based Report Cards Thomas R. Guskey, Jane M. Bailey, 2010 Providing a clear framework this volume helps school leaders align assessment and reporting practices with standards based education and develop more detailed reports of children's learning and progress

Report of a Survey of the School System of Saint Paul, Minnesota... Saint Paul (Minn.). Survey Commission, 1917

The Arc of the Covenant Earl Schwartz, 2019-07-08 The Arc of the Covenant studies the social cultural and political factors that contributed to exceptional Jewish educational success in St Paul Minnesota in the latter half of the twentieth century The book draws on archival sources interviews with principal figures and wide ranging research on Jewish education and community dynamics to elucidate the story's intriguing improbabilities Why such success in a midsize midcentury midwestern river town with a relatively small Jewish population of limited resources How did it happen and how have circumstances changed in recent years The answers are to be found at the intersection of broad historical forces and local circumstances Though focused on a particular place and time the implications reach far beyond St Paul then and now making Arc of the Covenant a timely resource for current Jewish educational planners along with educators in other communities dedicated to the transmission of a sacred heritage

 In recent decades sociology of education has been dominated by quantitative analyses of race class and gender gaps in educational achievement And while there s no question that such work is important it leaves a lot of other fruitful areas of inquiry unstudied This book takes that problem seriously considering the way the field has developed since the 1960s and arguing powerfully for its renewal The sociology of education the contributors show largely works with themes concepts and theories that were generated decades ago even as both the actual world of education and the discipline of sociology have changed considerably The moment has come they argue to break free of the past and begin asking new questions and developing new programs of empirical study Both rallying cry and road map Education in a New Society will galvanize the field [Public schools comparison of achievement results for students attending privately managed and traditional schools in six cities.](#) , [Developing Grading and Reporting Systems for Student Learning](#) Thomas R.
