Friday Focus Steve Flores, Jenny

Lacoste-Caputo, 2022-11-16 Friday Focus By Steve M Flores PhD with Jenny Lacoste Caputo Friday Focus is about connecting with the people you serve regardless of the position you occupy By sharing personal stories the reader is able to identify with the author directly by understanding and connecting with the likes dislikes fears questions and understandings gleaned from a background that is portrayed in a weekly message shared with staff over the course of 104 Fridays The author as a career educator of thirty eight years from driving buses to becoming a paraprofessional teacher's aide coach history teacher assistant principal principal area superintendent assistant superintendent deputy superintendent chief of staff and superintendent is able to highlight the hopes and dreams that are found in everyday situations The enlightening and positive messages give the reader the understanding that regardless of one's circumstances the world is indeed a remarkable and magnificent place Now more than ever we need to all understand that our world is better when we are together This book provides us with shared reflections that we can all understand

Staar Grade 5 Reading Assessment Flashcard Study

System Mometrix Media, 2010 **The Patchwork of World History in Texas High Schools** Stephen Jackson, 2022-11-30 This book traces the historical development of the World History course as it has been taught in high school classrooms in Texas a populous and nationally influential state over the last hundred years Arguing that the course is a result of a patchwork of competing groups and ideas that have intersected over the past century with each new framework patched over but never

completely erased or replaced the author crucially examines themes of imperialism Eurocentrism and nationalism in both textbooks and the curriculum more broadly The first part of the book presents an overview of the World History course supported by numerical analysis of textbook content and public documents while the second focuses on the depiction of non Western peoples and persistent narratives of Eurocentrism and nationalism It ultimately offers that a more global accurate and balanced curriculum is possible despite the tension between the ideas of professional world historians who often de center the nation state in their quest for a truly global approach to the subject and the historical core rationale of state sponsored education in the United States to produce loyal citizens Offering a new conceptual understanding of how colonial themes in World History curriculum have been dealt with in the past and are now engaged with in contemporary times it provides essential context for scholars and educators with interests in the history of education curriculum studies and the teaching of World History in the United States
