Against the Wind Carl L. Kell,2009 The struggle for control of the Southern Baptist Convention which was publicly launched in 1979 and concluded in the 1990s marked an unprecedented turning point in the history of the denomination Just as a new millennium was dawning everything in the denomination was different its priorities its policies and its personalities The conservatives had come decisively to the fore and those Baptists labeled as moderates found themselves largely exiled from the religious communities that had formed them and to which they had given their lives Using rhetorical and historical analysis to illuminate the role of the Baptist moderates and the schisms that led to their banishment Carl Kell argues that the twenty first century Baptist diaspora originated in an unintended fashion after World War II Birthed in a postwar revival movement at Baylor University in Waco Texas young men and women with little or no training in preaching and religious organization became the progenitors of a distinctive community of moderate believers Armed with a spirit of evangelism and missions fueled by a rhetoric of freedom these men and women would be among the first exiles and martyrs of the fundamentalist takeover that occurred years later As he probes the rhetoric that defined the moderate voice in Southern Baptist life Kell also shows how the rise of a conservative counter rhetoric associated with biblical inerrancy and related doctrines came into play to exclude and divide members of the convention Complementing Kell s text are contributions by several other prominent observers of the Southern Baptist holy wars among them William Hull Bill Leonard and Duke McCall The end result is a unique and penetrating examination of not only where the Baptist moderates came from but where they are headed and how they will get there Carl Kell is professor of communication at Western Kentucky University He is the editor of *Exiled Voices of the Southern Baptist Convention Holy War* and coauthor with Raymond Camp of *In the Name of the Father The Rhetoric of the New Southern Baptist Convention* [Beating against the Wind](#) Calvin Hollett,2016-05-01 There are many analyses of Tractarianism a nineteenth century form of Anglicanism that emphasized its Catholic origins but how did people in the colonies react to the High Church movement *Beating against the Wind* a study in nineteenth century vernacular spirituality emphasizes the power of faith on a shifting frontier in a transatlantic world Focusing on people living along the Newfoundland and Labrador coast Calvin Hollett presents a nuanced perspective on popular resistance to the colonial emissary Bishop Edward Feild and his spiritual regimen of order silence and solemnity Whether by outright opposing Bishop Feild or by simply ignoring his wishes and views or by brokering a hybrid style of Gothic architecture the people of Newfoundland and Labrador demonstrated their independence in the face of an attempt at hierarchical ascendancy upon the arrival of Tractarianism in British North America Instead they continued to practise evangelical Anglicanism and participate

in Methodist revivals and thereby negotiated a popular Protestantism one often infused with the spirituality of other seafarers from Nova Scotia and New England Exploring the interaction between popular spirituality and religious authority Beating against the Wind challenges the traditional claim of Feild's success in bringing Tractarianism to the colony while exploring the resistance to Feild's initiatives and the reasons for his disappointments
