The Girl Who Fell To Earth:

The Rocket That Fell to Earth Jeff Pearlman, 2009-03-24 Pearlman's book develops a stark unsparing picture of Clemens's life that surpasses anything that's come before Boston Globe New York Times bestselling author Jeff Pearlman reconstructs pitcher Roger Clemens's life from his Ohio childhood to the mounds of Fenway Park and Yankee Stadium to reveal a flawed and troubled man whose rage for baseball immortality took him to superhuman heights before he crashed down to earth. A fearless hard-nosed Texan with a 98 mph fastball and a propensity to throw at the heads of opposing hitters, Roger the Rocket Clemens won 354 games, an unprecedented seven Cy Young Awards, and two World Series trophies over the course of twenty-four seasons. But the statistics and hoopla obscured a far darker story: one of playoff chokes, womanizing, including a long-term affair with a teenage country singer, violent explosions, steroid and human growth hormone use, and an especially dark secret that Clemens spent a lifetime trying to hide: a family tragedy involving drugs and ultimately death.

When The Stars Fall To Earth Rebecca Bsl Tinsley, 2012-07-10 This is a novel about people who find themselves in the middle of a horrific conflict and how they survive. Their choices affect their families, the people they love, and the course of their lives. Their stories start before the events in Sudan touch them, following them through challenges and triumphs as they rebuild their lives. What they have in common with the rest of us is that their journeys are about finding out what kind of people they are. Should they try to draw strength from their anger, or should they let it go? Is it better to stick with what you know, or find the courage to change?

The Muslimah who Fell to Earth Saima S. Hussain, 2016 These twenty-one personal stories are told by women from practically all backgrounds and persuasions, revealing in their own ways what it means to them to be a Muslim woman, a Muslimah. What we get is a complex of stories, all challenging conventions and stereotypes, and united by two ideas: Islam or the Quran, and nationality Canadian.

Spells Peter Rock, 2017-04-01 Twenty years ago, while working as a security guard in an art museum, Peter Rock staved off the job's inherent boredom and loneliness by trying to make up a story for each photograph, painting, and object in the museum. A few years ago, reminded of the pleasures and play that he felt in danger of forgetting, he began to envision a similar project. As he explains: First, I found photographers whose work I was drawn to and contacted them with a very hypothetical and tentative description of what I was doing. Somewhat arbitrarily, I decided that five photographers would be a good number. I was gratified that the first five I contacted were excited to join me. Next, I let these photographers know why I was drawn to their work, noted some images I really admired, and shared some of my previous writing with them. I asked them to send me 20-30 images of these. I chose five at a time and proceeded incrementally, generating the specific stories as I went. The images are not merely illustrations for a pre-existent story; then, but the conditions and possibilities and limitations of how they proceeded. The images came first. One way to think of it is that the stories herein, and the larger story they become, were already embedded in the photographs. My attention and intuition acted

as a kind of excavation that brought them to the surface into words The texts range from narrative to prose poem from folktale to rant to reverie to an essay written by a fourth grader The overarching story follows three friends who have recently graduated from high school it explores their relationships and how things change when they become entangled with an elderly widower who claims to have dreamt of one of them The ensuing drama explores the relationship between dreams and waking life between the head and the heart between shadows and their bodies between the living and the dead *The Girl Who Fell to Earth* Patricia Forde,2023-06-15 A gripping high concept speculative middle grade novel from the award winning author of Bumpfizzle the Best on Planet Earth and The Wordsmith Aria lives on a well ordered planet whose people have eradicated illness and even death Earth is their shadow planet which they populated with humans centuries ago so they could study them and learn from their experiences Now the experiment is coming to an end and Aria must go to Earth with her scientist father to set off a train of events which will destroy its people Brought up to believe that humans are inferior Aria is shocked to discover that she is herself half human and amazed to find that Earth dwellers live life to the full and feel love for each other even though they are mortal But once she understands this how can she save them and herself from destruction
