News Jackie Harrison, 2005-11-10 Written in a clear and lively style with examples across a range of media including print radio television and the internet Jackie Harrison explains the different theoretical approaches that have been used to study news

Handbook of Global Media Ethics Stephen J.A. Ward, 2021-09-02 This handbook is one of the first

comprehensive research and teaching tools for the developing area of global media ethics The advent of new media that is global in reach and impact has created the need for a journalism ethics that is global in principles and aims For many scholars teachers and journalists the existing journalism ethics e g existing codes of ethics is too parochial and national It fails to provide adequate normative guidance for a media that is digital global and practiced by professional and citizen A global media ethics is being constructed to define what responsible public journalism means for a new global media era Currently scholars write texts and codes for global media teach global media ethics analyse how global issues should be covered and gather together at conferences round tables and meetings However the field lacks an authoritative handbook that presents the views of leading thinkers on the most important issues for global media ethics This handbook is a milestone in the field and a major contribution to media ethics *Captured by the Media* Paul Mason,2006 These articles examine how media presents prisons and punishment and how this presentation is related to public attitudes and government penal policy

Sports Broadcasting Kevin Hull,2022 This undergraduate textbook provides students with the information and skills needed to be a well rounded sports television or radio broadcaster Students will learn how to write for broadcast shoot and edit video and prepare for all the additional tasks needed along the way **Freelancing for Television and Radio** Leslie Mitchell,2005 A vocational guide for freelance employment in British radio and television **Media Globalization and the Discovery Channel Networks** Ole J. Mjos,2009-09-10 Offering a thorough and accessible account of the global expansion of Discovery and its relationship with media globalization Mjos explores the way in which the processes of media globalization unfold and develop and traces some of the possible consequences Popular Music and the State in the UK Martin Cloonan,2016-04-22 In an era of the rise of the free market and economic globalization Martin Cloonan examines why politicians and policymakers in the UK have sought to intervene in popular music a field that has often been held up as the epitome of the free market form Cloonan traces the development of government attitudes and policies towards popular music from the 1950s to the present discovering the prominence of two overlapping concerns public order and the political economy of music Since the music industry began to lobby politicians particularly on the issue of copyright in relation to the internet an inherent tension has become apparent with economic rationale on one side and Romantic notions of the artist on the other Cloonan examines the development of policy under New Labour numerous reports which have charted the economics of the industry the New Deal for Musicians scheme and the impact of devolution on music policy in Scotland He makes the case for the inherently political nature of popular music and asserts that the development of popular music policies can only be understood in the context of an increasingly close working relationship between government and the cultural industries In addition he argues that a rather myopic view of the music industries has meant that policy initiatives have lacked cohesion and have generally served the interests of multinational corporations rather than struggling musicians

HIV/AIDS, Health and the Media in China Johanna Hood,2011-01-25 HIV AIDS is an increasingly serious problem in

China with an increasing number of new cases every year As a result HIV organizations have boomed with both state and non governmental organisations responding to the threat with campaigns to increase public awareness of the disease utilising the media as the primary tool to reshape citizens understandings and views of HIV AIDS This book explores how HIV AIDS is portrayed in China s media It argues that despite increasing education campaigns media coverage and social and academic openness towards HIV AIDS many Chinese of the majority Han ethnic group regard infection as a distant possibility believing themselves to be immune and infection a problem only for certain non Han ethnic groups with perceived lower moral standards in particular black Africans The book explores how HIV AIDS is reported analysing the language used in constructing and encoding the health narrative its subjects and ideas about the disease It demonstrates how China s media frequently employs negative events to present the most extreme possibilities of poverty danger disasters and disease with black Africa portrayed as an antiquated distant and socioculturally and politically backward place uniquely unsuitable for the containment of disease in contrast with the progressive scientifically sophisticated and morally upstanding Chinese It argues that this discourse has had the effect of distancing many Chinese from the perceived possibility of infection thus compromising the effectiveness of public health campaigns on HIV AIDs It suggests that the key to combating the spread of the disease lies in challenging the racialised narratives through which the disease is portrayed in China s media rather than simply by aiming to educate greater numbers of people

Indexing 'Chav' on Social Media Emilia Di Martino, 2022-09-15

The book sets out to examine the concept of chav providing a review of its origins its characterological figures the process of enregisterment whereby it has come to be recognized in public discourse and the traits associated with it in traditional media representations The author then discusses the chav label in light of recent re appropriations in social network activity particularly through the video sharing app TikTok and subsequent commentary in the public sphere She traces the evolution of the term from its use during the first decade of the twenty first century to make sense of class status and cultural capital to its resurgence and the ways in which it is still associated with appearance in gendered and classed ways She then draws on recent developments in linguistic anthropology and embodied sociocultural linguistics to argue that social media users draw on communicative resources to perform identities that are both situated in specific contexts of discourse and dynamically changing challenging the idea that geo sociocultural varieties and mannerisms are the sole way of indexing membership of a community This volume contends that equating chav with underclass in the most recent uses of the concept on social networks may not be the whole story and the book will be of interest to sociocultural linguistics and identity researchers as well as readers in anthropology sociology British studies cultural studies identity studies digital humanities and sociolinguistics

The Advertising Handbook Helen Powell, Jonathan Hardy, Sarah Hawkin, Iain Macrury, 2013-09-13 The Advertising Handbook is a critical introduction to the practices and perspectives of advertising It explores the industry and those who work in it and examines the reasons why companies and organizations advertise how they research their markets where they advertise and in which media the principles and techniques of persuasion and their effectiveness and how companies measure their success It challenges conventional wisdom about advertising power and authority to offer a realistic assessment of its role in business and also looks at the industry's future The third edition offers new material and a new organising framework whilst continuing to provide both an introduction and an authoritative guide to advertising theory and practice It is shaped to meet the requirements interests and terms of reference of the most recent generation of media and advertising students as well as taking account of some of the most recent academic work in the field and of course contemporary advertising innovations

Toward a New Public Diplomacy P. Seib, 2009-08-31 Proponents of American public diplomacy sometimes find it difficult to be taken seriously Everyone says nice things about relying less on military force and more on soft power But it has been hard to break away from the longtime conventional wisdom that America owes

its place in the world primarily to its muscle Today however policy makers are recognizing that merely being a superpower whatever that means now does not ensure security or prosperity in a globalized society Toward a New Public Diplomacy explains public diplomacy and makes the case for why it will be the crucial element in the much needed reinvention of American foreign policy
