The Heart Does Not Grow Back A Novel:

The Heart Does Not Grow Back Fred Venturini, 2014-11-04 EVERY SUPERHERO NEEDS TO START SOMEWHERE Dale Sampson is used to being a nonperson at his small town Midwestern high school picking up the scraps of his charismatic lothario of a best friend Mack. He comforts himself with the certainty that his stellar academic record and brains will bring him the adulation that has evaded him in high school. But when an unthinkable catastrophe tears away the one girl he ever had a chance with, his life takes a bizarre turn as he discovers an inexplicable power. He can regenerate his organs and limbs. When a chance encounter brings him face to face with a girl from his past, he decides that he must use his gift to save her from a violent husband and dismal future. His quest takes him to the glitz and greed of Hollywood and into the crosshairs of shadowy forces bent on using and abusing his gift. Can Dale use his power to redeem himself and those he loves or will the one thing that finally makes him special be his demise? **The Heart Does Not Grow Back** is a darkly comic, starkly original take on the superhero tale introducing an exceptional new literary voice in Fred Venturini.

Future T/Issues Ruth Gehrmann, 2024-07-01 Transplant practices are discussed in the medical realm in fictional texts and in popular advertisement. Yet how do these sectors intersect and influence each other? How can the accounts of surgeons invested in transplant practice be brought into conversation with fictional voices? *Future T/Issues* positions transplantation at the intersection of natural science and the humanities and adds to the discussion of organ transplantation by focusing on one specific aspect that is commonly overlooked: the idea of speculation. By engaging with speculative fiction in conversation with

life writing it contributes to a more thorough understanding of transplantation as a cultural practice showcasing that transplantation is imagined as part of the future both within and beyond the literary sphere Hereby this book establishes the relationship between literary and medical narratives as reciprocal in effect eroding boundaries between the life sciences and literary studies As an interdisciplinary endeavor this study contributes to literary studies specifically to the fields of life writing speculative fiction and young adult fiction it offers insights for the study of transplantation in the popular realm and adds to the medical humanities
