Joris K. Huysmans,2018-11-14 Duc Jean des Esseintes the wealthy last survivor of a once powerful family has retreated from his bourgeois life in Paris Overwhelmed by the absurdities and grotesqueries of human affairs he dwells in an isolated villa spending his days in intellectual and aesthetic contemplation In an environment of ascetic medievalism and hermit like seclusion des Esseintes reviews the compendium of human experience Color food and drink literature art music philosophy and religion all are scrutinized sifted and analyzed according to his delicate highly selective tastes Filled with weird images manifestations of a bizarre imagination and biting wit this novel scandalized Victorian critics with its break from naturalism and embrace of fin de si cle decadence It nevertheless exerted considerable influence over French and English writers and remains a classic account of the quest for enlarged experience and new sensations This edition includes a Preface written by the author 20 years after the book s original 1884 publication *The Dover Anthology of Bird Poetry* NZ Kay,2024-05-15

Birds have long been a source of inspiration for poets from the Elizabethan era through the twentieth century This volume includes poems by Emily Dickinson John Keats Edgar Allan Poe William Butler Yeats and others European Thought and Culture, 1350-1992 Michael J. Sauter,2021-06-06 This book explores the main currents of European thought between 1350 and 1992 which it approaches in two principal ways culture as produced by place and the progressive unmooring of thought from previously set religious and philosophical boundaries The book reads the period against spatial thought s history spatial sciences such as geography or Euclidean geometry to argue that Europe cannot be understood as a continent in intellectual terms or its history organized with respect to traditional spatial geographic categories Instead we need to understand

European intellectual history in terms of a culture that defined its own place as opposed to a place that produced a given culture. It then builds on this idea to argue that Europe's overweening drive to know more about humanity and the cosmos continually breached the boundaries set by venerable religious and philosophical traditions. In this respect, spatial thought foregrounded the human at the unchanging's expense, with European thought slowly becoming unmoored as it doggedly produced knowledge at wisdom's expense. Michael J. Sauter illustrates this by pursuing historical themes across different chapters, including European thought's exit from the medieval period, the Renaissance, the Reformation, the Scientific Revolution, the Enlightenment, and Romanticism, the Industrial Revolution, and war and culture, offering a thorough overview of European thought during this period. The book concludes by explaining how contemporary culture has forgotten what early modern thinkers such as Michel de Montaigne still knew, namely, that too little skepticism toward one's own certainties makes one a danger to others. Offering a comprehensive introduction to European thought that stretches from the late fourteenth to the late twentieth century, this is the perfect one-volume study for students of European intellectual history. **Library Journal**, 1990-07

The Prisoner of Zenda Anthony Hope, 2013-07-24 A fiendish plot imprisons the rightful king of Ruritania, leaving his dashing lookalike cousin to attempt to save the day. Brimming with adventure and romance, this classic delights readers of all ages.

We Give Our Thanks Unto Thee Porter C. Taylor, 2019-04-17 Fr. Alexander Schmemmann continues to influence liturgical and sacramental theologies some thirty-five years after his death. Despite the wide acceptance within Protestant circles of his timeless classic *For the Life of the World*, there has been relatively little written about him from an ecumenical context. This volume of collected essays seeks to explore his theological legacy and further his work. With essays from leading scholars such as David Fagerberg, Bruce Morrill, Joyce Zimmerman, and more, this volume is meant for both teachers and students of liturgical and sacramental theology. In an effort to introduce Schmemmann to a wider audience and to celebrate his work through meaningful engagement and dialogue, contributors come from a wide variety of ecclesiastical backgrounds: Anglican, Roman Catholic, Orthodox, Lutheran, Presbyterian, Methodist, Free Church, and more. The Eucharist is therefore the manifestation of the Church as the new aeon; it is participation in the Kingdom as the parousia, as the presence of the Resurrected and Resurrecting Lord. It is not the repetition of His advent or coming into the world, but the lifting up of the Church into His parousia, the Church's participation in His heavenly glory. Fr. Alexander Schmemmann, *Introduction to Liturgical Theology*, p. 72.

A Christmas Carol Charles Dickens, 1991 Ebenezer Scrooge, a miserly businessman, learns the true meaning of Christmas after he is visited by the ghosts of Christmases past, present, and future.
