To the Edge of the World Christian Wolmar,2014-08-05 To the Edge of the World is an adventure in travel full of extraordinary personalities more than a century of explosive political economic and cultural events and almost inconceivable feats of engineering Christian Wolmar passionately recounts the improbable origins of the Trans Siberian railroad the vital artery for Russian expansion that spans almost 6 000 miles and seven time zones from Moscow to Vladivostok The world's longest train route took a decade to build in the face of punishing climates rampant disease scarcity of funds and materials and widespread corruption The line sprawls over a treacherous landmass that was previously populated only by disparate tribes and convicts serving out their terms in labor camps where men were regularly starved tortured or mutilated for minor offenses Once built it led to the establishment of new cities and transformed the region's history Exceeding all expectations it became according to Wolmar the best thing that ever happened to Siberia It was not all good news however The railroad was the cause of the 1904 1905 Russo Japanese War and played a vital and at times bloody role in the Russian Revolution and the subsequent Civil War More positively the Russians were able to resist the Nazi invasion during the Second World War as new routes enabled whole industries to be sent east Siberia previously a lost and distant region became an inextricable part of Russia's cultural identity And what began as one meandering single track line is now arguably the world's most important railroad **Edge of the World** ,2001-11-13 Writer and explorer Charles Neider made his first trip to Antarctica in 1969 achieving a lifelong goal of seeing the frozen continent with his own eyes During this visit and a return trip in 1970 both backed by the U S Navy and the National Science Foundation Neider discovered the rigor and beauty of life so close to the South Pole In addition to his own experiences Edge of the World also contains Neider's accounts of Shackleton's and Scott's expeditions and the story of his own helicopter crash and rescue on the slopes of Mt Erebus Neider's account is erudite
