produced cheaply and there was no need to put expensively trained pilots at risk The planes could be launched by day or night whatever the weather They were true terror weapons as the first hand accounts of those who lived through the attacks make clear there was very little notice that a doodlebug explosion was imminent and so it was almost impossible to take cover The book describes the first weekend of the attacks with the bombing of the Guards Chapel the evacuation program which followed and the UK s defense strategies It goes on to discuss the second phase of the attacks including the planned bombing of Manchester and the third phase of the campaign where V1s were ground launched from the Netherlands *The 2012 Presidential Campaign* Robert E.
