Intelligence is one of the defining characteristics of human beings an inherent ability to respond to the world with awareness knowledge learning and insight Most considerations of human intelligence are based on the notion that intelligence is a product of brain functioning A H Almaas introduces here a radically different viewpoint one that recognizes an actual quality of consciousness as the source of intelligence He calls this source the Brilliancy of our true nature The presentation of his understanding of intelligence is followed by in depth dialogues with his students on the various barriers to recognizing and embodying this essential quality In particular an unresolved relationship with one's father is found to shape the experience of Brilliancy Using a Socratic method that draws upon techniques of body centered Gestalt psychodynamic and cognitive psychologies Almaas helps participants work through their defenses and conflicts surrounding this issue and then diverging from psychotherapeutic practice guides them in discovering their own Brilliancy *Rebirthing into Androgyny* Berenice Andrews, 2012-11-14 In these interesting times when many people are searching for spiritual nourishment this book is intended to be a means of providing it *Rebirthing Into Androgyny Your Quest For Wholeness And Afterward* offers to the hungry ones a familiar yet totally different feast While it sets forth an already established metaphysics it also presents a radical new idea one that has been implicit in that spiritual thought but unavailable until now and the new awareness associated with quantum physics In other words while this book provides soul searchers also known as learners with an ages old means of generating a fundamental inner change a rebirthing it also provides a new living prototype of what is being reborn Thus a person's rebirthing is both a gestation and a labor a quest producing an ever increasing knowing gnosis which gradually becomes being that can finally merge with the Beloved Self And the new living prototype is that of the human soul not as what a person has but as what a person is a creative energy being who generates its own bodies out of its soul substance its creative consciousness energy by means of its archetypal human energy system while always being guided by its nucleus of divinity In this book which is a textbook for soul searchers all of this transformative change is offered explored and explained in a series of carefully crafted lessons lovingly taught by a shamanic teacher healer in a stone circle classroom the ancient site of a modern teaching There is a grand feast awaiting *Without a Mask* Avikal Costantino, 2011-11-16 Relaxed presence clear intention and freedom from mediocrity will be the flowering of being your Authentic Self

Pilgrimage--The Sacred Art Sheryl A. Kujawa-Holbrook, 2013 Explore the many dimensions of the pilgrimage experience and change your orientation to the world Pilgrimage is an opportunity for pilgrims to cultivate their inner life or inner voice in a way that leads to a greater sense of peace and compassion a sense that pervades all of life from Chapter 6 Preparing to Practice Pilgrimage is a spiritual practice of nearly every major religion of the world If you are a Christian you may travel to sites associated with the life of Jesus Jews might visit the Western Wall in the Old City of Jerusalem and other sacred places in the Holy Land of Israel Muslims participate in the Hajj the journey to Mecca Buddhists visit the sacred sites

related to the life of Buddha Even if you practice no religion at all you will still find that you most likely participate in this practice the Jefferson Memorial in Washington DC and Lenin s tomb in Moscow are considered national pilgrimage sites As a spiritual practice pilgrimage transcends religious national cultural and linguistic boundaries This fascinating look at the sacred art of pilgrimage integrates spirituality practice spiritual formation psychology world religions and historical resources It examines how the world s religious pilgrimages evolved as central spiritual practices and the relationship between pilgrimage and transformation It explains what makes a place holy and why and how some sites are so compelling that they attract thousands even millions of pilgrims each year Crystal Yoga I Roger Calverley,2007-01-10 The Crystal Mesa can be used in many ways to assist the inner work of balancing energies harmonizing mind and heart clarifying intent and discernment working with the chakras The Crystal Mesa can also be a teacher of mystic wisdom of which it is a sacred storehouse it also deepens meditation and links its user s awareness to primal energies and archetypes for understanding the experiences which come through spiritual practice **The Holy Intimacy of Strangers** Sarah York,2002-11-08 In The Holy Intimacy of Strangers Sarah York explores our common yearning for deeper and more meaningful connection with one another The book presents the paradox we often observe how our seemingly casual interactions with strangers can unlock the door to our hearts and help us discover how we need and yet often resist true intimacy in our relationships This provocative book gives us a new way to look at the qualities of our exchanges with strangers Once we begin this journey we can trace the outlines of our lives together in community our expressions of caring and hospitality the costs of prejudice and judgment our fears and defensiveness the tension between being inclusive or exclusive our expectations and assumptions about one another *The Alchemy of Freedom* A. H. Almaas,2017-03-28 Well known spiritual teacher A H Almaas uses the metaphor of the mysterious philosopher s stone to discuss a tremendous liberating power that leads to endless enlightenment For millennia alchemists sought the philosopher s stone the miracle substance believed to be the key to all the secrets of existence The quest was fueled by some of the prime questions of human existence What am I Why am I here How has this world come to be A H Almaas shows that the tremendous liberating power of the mysterious philosopher s stone is closer to us than we realize In fact it is the true nature of all reality in all times and all places without being limited to being anything in particular Through the philosopher s stone real transformation can happen our consciousness can become free and we can open to all the possibilities of reality Almaas discusses the factors that are involved in igniting the catalytic property of the philosopher s stone and then begins to unpack the properties of true nature when it is free of constraints Finally we are left with the revelation that true nature is endlessly knowable and yet nothing we can know or say about it exhausts its mystery and power The result is a new understanding of what liberation and practice are and a view of what it s like when seeking ceases and life becomes a process of continual discovery We begin to appreciate that the freedom of reality expressed in the complete and fulfilled life all human beings seek and few find is actually the simplicity of the ordinary **Life in the**
