In recent years the medium has increasingly turned to magic specifically as a metaphor for a wide range of cultural, philosophical and psychological concerns. This book first examines a range of Eastern and Western approaches to magic in anime, addressing magical thinking as an overarching concept which unites numerous titles despite their generic and tonal diversity. It then explores the collusion of anime and magic with reference to specific topics. A close study of cardinal titles is complemented by allusions to ancillary productions in order to situate the medium's fascination with magic within an appropriately broad historical context.

Bless the Blood Walela Nehanda, 2025-01-28 A searing debut YA poetry and essay collection about a Black cancer patient who faces medical racism after being diagnosed with leukemia in their early twenties for fans of Audre Lorde's *The Cancer Journals* and Laurie R. King's *Shout*. When Walela is diagnosed at twenty-three with advanced-stage blood cancer, they're suddenly thrust into the unsympathetic world of tubes and pills, doctors who don't use their correct pronouns and hordes of well-meaning but patronizing people offering unsolicited advice as Walela navigates rocky personal relationships and shares their story online. But this experience also deepens their relationship to their ancestors, providing added support from another realm. Walela's diagnosis becomes a catalyst for their self-realization. As they fill out forms in the insurance office in downtown Los Angeles or travel to therapy in wealthier neighborhoods, they begin to understand that cancer is where all forms of their oppressed identities intersect. In *Bless the Blood: A Cancer Memoir*, the author details a galvanizing account of their survival despite the U.S. medical system and of the struggle to face death unafraid.
