long and captivating past The Hermeneutics of Historical Distance Robert Moore-Jumonville, 2002 Historians have tended to create a dualistic paradigm which excludes a mediating biblical criticism in America For polemical reasons it has been easier for both conservatives and liberals to polarize moderates as the opposition or to ignore them altogether Rather than the common modernist fundamentalist paradigm which is dualistic a more accurate way to interpret the biblical criticism of late nineteenth century America is to construe a theological spectrum extending from right to left *Outlines of Universal History* George Park Fisher, 1885 **A History of the Jewish People in the Time of Jesus Christ: Two Divisions in Five Volumes** Emil Schürer D.D. M.A., Aeterna Press, In the fullness of time the Christian religion sprang out of Judaism as a fact indeed of divine revelation but also inseparably joined by innumerable threads with the previous thousand years of Israel's history No incident in the gospel story no word in the preaching of Jesus Christ is intelligible apart from its setting in Jewish history and without a clear understanding of that world of thought distinction of the Jewish people Aeterna Press **Studies in the Archaeology and History of Caesarea Maritima** Joseph Patrich, 2011-09-23 The book well illustrated presents in a wider historical cultural context the results of the archaeological explorations 1990 s to early 2000 s at Caesarea Maritima the provincial capital of Roman Judaea Palaestina where Jews Pagans Christians and Samaritans lived side by side **The Holy Land in History and Thought** Moše Šārôn, 1988 **Orientation to the History of Roman Judaea** Steve Mason, 2016-12-09 No field of study is livelier than the history of Roman era Judaea ca 200 BC to AD 400 Bold reinterpretations of texts and new archaeological discoveries prompt us constantly to rethink assumptions What kind of religion was Judaism How did Jews and Christians relate to Roman imperial power Should we speak of Judaism or Judaisms How should the finds at Qumran affect our understanding Did Paul and other early Christians remain within Judaism Should we translate Ioudaioi as Jews or Judaeans These debates can leave students perplexed this book argues because the participants share only a topic They are actually investigating different questions using disparate criteria In the hope of facilitating communication and preparing advanced students this book explores two basic but neglected problems What does it mean to do history if history is what we wish to do And how did the ancients understand and describe their world It is not a history then but an orientation to the history of Roman Judaea Rather than trying to specify which questions are good ones or what one should think about them the book offers new perspectives to help unleash the historical imagination while reckoning squarely with the nature of our evidence Publications of the Buffalo Historical Society, 1915 **History, Archaeology and The Bible Forty Years After Historicity** Ingrid Hjelm, Thomas L. Thompson, 2016-02-22 In History Archaeology and the Bible Forty Years after Historicity Hjelm and Thompson argue that a crisis broke in the 1970s when several new studies of biblical history and archaeology were published questioning the historical critical method of biblical scholarship The crisis formed the discourse of the Copenhagen school's challenge of standing positions which together with new achievements in archaeological research demand that the regional history of ancient Israel Judaea and Palestine be

reconsidered in all its detail This volume examines the major changes that have taken place within the field of Old Testament studies since the ground breaking works of Thomas Thompson and John van Seters in 1974 and 1975 both republished in 2014 The book is divided in three sections changing perspectives in biblical studies history and cult and ideology and history presenting new articles from some of the field s best scholars with comprehensive discussion of historical archaeological anthropological cultural and literary approaches to the Hebrew Bible and Palestine s history The essays question How does biblical history relate to the archaeological history of Israel and Palestine and Can we view the history of the region independently of a biblical perspective by looking at the problem from alternative angles and questioning long held interpretations Unafraid to break new ground History Archaeology and the Bible Forty Years after Historicity is a vital resource to students in the field of Biblical and East Mediterranean Studies and anyone with an interest in the archaeology history and religious development in Palestine and the ancient Near East David in the Desert Hannes Bezzel, Reinhard G. Kratz, 2021-05-10 In the course of the last two decades both the historical reconstruction of the Iron I Iron IIA period in Israel and Judah and the literary historical reconstruction of the Books of Samuel have undergone major changes With respect to the quest for the historical David terms like empire or Gro reich have been set aside in favor of designations like mercenary or hapiru leader corresponding to the image of the son of Jesse presented in I Sam At the same time the literary historical classification of these chapters has itself become a matter of considerable discussion As Leonhard Rost s theory of a source containing a History of David s Rise continues to lose support it becomes necessary to pose the question once again Are we dealing with a once independent story of David embracing both the HDR and the succession narrative are there several independent versions of an HDR to be detected or do I Sam 16 II Sam 5 constitute a redactional bridge between older traditions about Saul on the one hand and David on the other In either case what parts of the material in I Sam 16 II Sam 5 are based on ancient traditions and may therefore serve as a source for any tentative historical reconstruction The participants in the 2018 symposium at Jena whose essays are collected in this volume engage these questions from different redaction critical and archaeological perspectives Together they provide an overview of contemporary historical research on the book of First Samuel **Writing and Rewriting the Story of Solomon in Ancient Israel** Isaac Kalimi, 2018-11-29 Analyses Solomon s birth rise and temple building within scriptural archaeological and historical contexts **History of the Australian Vegetation** Robert S. Hill, 2017-03-01 The Australian vegetation is the end result of a remarkable history of climate change latitudinal change continental isolation soil evolution interaction with an evolving fauna fire and most recently human impact This book presents a detailed synopsis of the critical events that led to the evolution of the unique Australian flora and the wide variety of vegetational types contained within it The first part of the book details the past continental relationships of Australia its palaeoclimate fauna and the evolution of its landforms since the rise to dominance of the angiosperms at the beginning of the Cretaceous period A detailed summary of the palaeobotanical record is then

presented The palynological record gives an overview of the vegetation and the distribution of important taxa within it while the complementary macrofossil record is used to trace the evolution of critical taxa This book will interest graduate students and researchers interested in the evolution of the flora of this fascinating continent **Archaeology, History and Science**

Marcos Martín-Torres,Thilo Rehren,2009-05-31 Rarely do archaeological studies provide critical consideration of how historical archaeological and scientific data relate to each other or explicit attempts at demonstrating successful strategies for these kinds of interdisciplinary research The authors in this volume provide such a critical consideration examining a wide range of cultures time periods and materials Never Had the Like Occurred John Tait,2016-09-16 Never Had the Like Occurred examines Ancient Egypt s own multifaceted encounters with its past As Egyptian culture constantly changed and evolved this book follows a chronological arrangement from early Egypt to the attitudes of the Coptic population in the Byzantine Period Within this framework it asks what access the Egyptians had to information about the past whether deliberately or accidentally acquired what use was made of the past what were the Egyptians attitudes to the past what sense of past time did the Egyptians have and what kinds of reverence for the past did they entertain This is the first book dedicated to the whole range of these themes It provides an explanatory context for the numerous previous studies that have dealt with particular sets of evidence particular periods or particular issues It provides a case study of how civilizations may view and utilize their past *Journal of the Royal Institute of British Architects* ,1910 *A Political History of the Arameans* K. Lawson Younger Jr.,2016-10-07 An up to date analysis of the history of the ancient Near East and the Arameans K Lawson Younger Jr presents a political history of the Arameans from their earliest origins to the demise of their independent entities The book investigates their tribal structures the development of their polities and their interactions with other groups in the ancient Near East Younger utilizes all of the available sources to develop a comprehensive picture of this complex yet highly important people whose influence and presence spanned the Fertile Crescent Features The best recent understanding of tribal political structures aspects of mobile pastoralism and models of migration A regional rather than a monolithic approach to the rise of Aramean polities Thorough integration of the complex relationships and interactions of the Arameans with the Luwians the Assyrians the Israelites and others Critical Issues in Early Israelite History Richard S. Hess,Gerald A. Klingbeil,Paul J. Ray Jr.,2008-06-30 The origin of the Israelites is one of the most frequently discussed issues among archaeologists and biblical scholars Only a few decades ago biblical stories such as the Conquest were heralded as confirmed by archaeology But in the 1970s Thomas L Thompson and John Van Seters were in the vanguard of a movement among scholars that was intent on reassessing the historical reliability of the biblical narratives This reassessment gained momentum during the 1980s and 1990s today the mainstream opinion is that there was no Conquest and the Israelites if they can be identified as a national entity or as a people did not arrive in Canaan by means of a military conquest For three days in March 2004 a group of scholars met to consider the state of the question and to provide a response to the predominant

academic skepticism a response that considers the biblical text to be an important datum in the construction of the history of the people of Israel To do so the authors of the papers read at the conference take into account both biblical and extrabiblical literary evidence as well as the contributions of archaeology to describe as completely as possible what may be known about the early history of Israel Critical Issues in Early Israelite History publishes the papers read at this conference in the hope that the result will be a balanced portrayal of this watershed event based on all of the currently available evidence
