The Gutbucket Quest Piers Anthony, Ron Leming, 2014-07-01 A blues musician is blasted into a parallel world in a novel that's a houserockin' good time cowritten by the New York Times bestselling author Booklist Slim's a Texas bluesman of a certain age down on his luck and just about broke but hey that's what the blues are all about He loves his music Not the popular blues homogenized synthesized and zombilized but the real down home gut bucket blues Then one day the music loves him back In a single hot burst of lightning that comes straight up out of the ground Slim finds himself in Tejas It's a little bit magic and a whole lot different but the blues are the same And the blues manifest here in the form of a maple necked pearl gray Fender Stratocaster with blue chrome pickups aka the Gutbucket need him and need him bad The Strat's fallen into the hands of T Bone Pickens and his Vipers who want to suck up all its power and turn it to evil Slim's off and running on the Gutbucket Quest with the help of his new mentor rhythm guitarist Progress T Hornsby and a purely unstoppable blues singer named Nadine

The A to Z of Fantasy Literature Brian Stableford, 2009-08-13 Once upon a time all literature was fantasy set in a mythical past when magic existed animals talked and the gods took an active hand in earthly affairs As the mythical past was displaced in Western estimation by the historical past and novelists became increasingly preoccupied with the present fantasy was temporarily marginalized until the late 20th century when it enjoyed a spectacular resurgence in every stratum of the literary marketplace Stableford provides an invaluable guide to this sequence of events and to the current state of the field The chronology tracks the evolution of fantasy from the origins of literature to the 21st century The introduction explains the nature of the impulses creating and shaping fantasy literature the problems of its definition and the reasons for its changing historical fortunes The dictionary includes cross referenced entries on more than 700 authors ranging across the entire historical spectrum while more than 200 other entries describe the

fantasy subgenres key images in fantasy literature technical terms used in fantasy criticism and the intimately convoluted relationship between literary fantasies scholarly fantasies and lifestyle fantasies The book concludes with an extensive bibliography that ranges from general textbooks and specialized accounts of the history and scholarship of fantasy literature through bibliographies and accounts of the fantasy literature of different nations to individual author studies and useful websites
