Project Scheduling under Limited Resources Sönke Hartmann, 1999-11-17. Approaches to project scheduling under resource constraints are discussed in this book. After an overview of different models it deals with exact and heuristic scheduling algorithms. The focus is on the development of new algorithms. Computational experiments demonstrate the efficiency of the new heuristics. Finally it is shown how the models and methods discussed here can be applied to projects in research and development as well as market research.
