

THE GUTS TO TRY

The Guts to Try is a thrilling true-life adventure story of very brave men attempting the kind of commando raid that usually exists only in fiction and the movies. The title comes from the inscription on a consolatory case of beer sent by British mercenaries in Oman: "From us all, to you all, for having the guts to try."

This is also a cautionary tale that every American should read. *The Guts to Try* asks demanding questions about the ability of the United States to react quickly and effectively to terrorist threats worldwide. The American government and military must face the real lessons learned from the failed Tehran mission and apply this knowledge to crises it faces around the globe.

COLONEL JAMES H. KYLE, USAF (Ret.), was commander of the Air Force component of the Iran Rescue Mission and the landing zone in Iran known as Desert-I. He continues to share his extensive knowledge of Special Operations as a lecturer for the USAF Special Operations School. JOHN R. EIDSON is Features Department Editor for the *Press Telegram*, Long Beach, California.

* * * * *

"This book speaks volumes of the call to courage that saw these magnificent men put their lives on the line to restore freedom to me and my fifty-two colleagues held hostage in Tehran. In that effort they failed. But they succeeded – and gloriously so – in demonstrating unbound courage and, God yes, in showing that they did indeed have the guts to try."

L. Bruce Laingen

former *Chargé d'Affairs* U.S. Embassy, Tehran,
and former hostage

*"We all owe Jim Kyle a debt of thanks for having the guts to write *The Guts to Try*. We have all wondered: What really happened? What went wrong? Could the Iranian rescue mission have really worked? Kyle answers these and scores of other questions that have nagged every American since April 1980 in a page-turner that makes the reader feel we're on the mission with him every step of the way. It's the most detailed, readable 'after action report' in decades."*

Benjamin F. Schemmer

The Guts To Try Book Report:

Parameters ,1992 United States Military History 1865 to the Present Day Jeffery Charlston,2017-11-22 Explaining America's rise as a global military power challenges the methodologies of military history This volume looks beyond the major conflicts covered elsewhere in the Library to explore the operational conceptual technological and cultural forces that shaped the United States military after the American Civil War Individual articles reflect the wide range of topics and approaches that contribute to the growing understanding of the American military and its relationship with its parent society

Air University Library Index to Military Periodicals ,1995 **Which Lessons Matter?** Christopher Hemmer,2012-02-01 As policy makers turn to the lessons of history to which lessons will they turn This book offers a model of the analogical reasoning process that helps answer the important question of why some historical analogies are seen as relevant for later decisions while others are ignored It explores the previously neglected possibility that analogies can do more than simply advance the pre-existing interests of decision makers but can also determine the very interests policy makers seek to further The usefulness of this approach in impacting the lessons of history is demonstrated by examining American policy toward Iran concerning American hostages from 1979 to 1987 detailing both the Carter administration's policy during the Hostage Crisis and the Reagan administration's policy that resulted in the Iran Contra Affair **Military Review** ,1992 **Quarterly Review of Military Literature** ,1992 **Military Geosciences in the Twenty-First Century** Russell S. Harmon,Sophie E. Baker,Eric V. McDonald,2014-08-22 Eighteen chapters address the complex yet critical aspects of the role of geosciences in military undertakings The chapters cover a wide range of expertise drawn from the broad area of geology geomorphology geography geophysics engineering geology hydrogeology cartography environmental science remote sensing soil science geoinformatics and related disciplines that reflect the multidisciplinary nature of military geology **Perilous Options** Lucien S. Vandenbroucke,1993 In the past three decades the United States government has used special operations repeatedly in an effort to achieve key foreign policy objectives such as in the overthrow of Fidel Castro in Cuba and the rescuing of American hostages in Iran Many of these secret missions carried out by highly trained commando forces have failed In *Perilous Options* Lucien Vandenbroucke examines the use and misuse of such special operations through an in-depth analysis of four operations the Bay of Pigs invasion the Sontay raid to rescue POWs in North Vietnam the Mayaguez operation and the Iran hostage rescue mission Drawing extensively on declassified government documents interviews with key decision makers and participants in these episodes and other primary material *Perilous Options* identifies recurrent problems in the way the United States government has prepared and executed such operations These recurrent problems outlined by key participants in these four special operations include faulty intelligence poor interagency and interservice cooperation and coordination inadequate information and advice provided to decisionmakers wishful thinking on the part of decisionmakers and overcontrol of mission execution from outside the theater

of operations Vandenbroucke also explores the extent to which recent efforts to revitalize the U S operations capability have addressed these problems identifying additional changes that can improve the government s ability to plan evaluate and execute such operations

Never Take Advice from an Unscarred Man Dennis Kolb,2011-07 In his new collection of short stories author Dennis Kolb shares the wisdom that came laced with the bumps and bruises he earned along the way through his life From hunting for whitetail deer to the challenges of looking for a job after leaving the navy Kolb shares funny moments and challenging times with wit and humor He knew he needed to be willing to make the mistakes and happily take his lumps as he journeyed toward his goal a life well lived Along the way he imparts his own brand of wisdom for example you can t reason with animals or machines and sometimes repeating the same action gets different results He knows about humiliation and he knows about success he also knows that timing is everything In *Never Take Advice from an Unscarred Man* Kolb recalls his time as a small kid through the last half of the forties his crazy teen years his life in the navy and beyond The educational bruises and mistakes Kolb recounts have had far more influence on his happiness and success than any formal education could have In these charming homespun stories he offer memories of times past for all to experience and enjoy

Special Ops Orr Kelly,2017-08-08 Four military histories from a writer whose fine work should be of great interest both to casual readers and to uniformed students of special ops Publishers Weekly An expert in military affairs Orr Kelly reveals the cutting edge technology and jaw dropping courage of the US military s elite forces on land sea and air *Brave Men Dark Waters* Originating in World War II as Underwater Demolition Teams the Navy SEALs are the best of the best in the armed forces known for their toughness and fearlessness and their remarkable ability to get the job any job done Facing America s enemies across the globe these modern warriors were the first to enter the fight in Vietnam Panama Grenada and Iraq *Brave Men Dark Waters* is the most complete in depth study of this fabled elite unit Library Journal *Never Fight Fair* Here in their own words are the true accounts of the US Navy SEALs from their formation in World War II to the jungles of Vietnam to the deserts of Iraq In this riveting oral history these brave men speak openly about their training and their missions offering the uncensored inspiring and sometimes shocking truth about their combat triumphs and their rare but devastating failures *Hornet* Born in 1978 the McDonnell Douglas F A 18 *Hornet* has forever changed the way America s wars are fought This is the fascinating true story of the controversial development and deployment of the state of the art supersonic fighter and attack aircraft with a top speed of more than one thousand miles per hour Kelly details how *Hornet* came to be how it was nearly doomed by an unprecedented political battle and how it has served ably in combat from its first mission in Libya to Operation Desert Storm and well beyond From a *Dark Sky* Very little is known about US Air Force Special Operations yet their exploits have been as daring and their achievements as remarkable as anything accomplished by their brother warriors Since World War II these ultrasecretive air commandos have routinely performed the nearly impossible from providing air support for partisans in Nazi occupied France to participating in clandestine CIA operations in Vietnam

and Cambodia to secretly inserting covert operatives into North Korea From a Dark Sky is a well conceived and well executed well deserved tribute to an uncommonly fine body of American warriors Booklist The 1970s Neil A.

Hamilton,2009 Traces the history of the United States during the 1970s as well as presenting primary source material such as memoirs letters news articles and speeches Special Warfare ,1995 **Slow Boat to China and Other Stories** Kim Chew Ng,2016-03-01 Dream and Swine and Aurora Deep in the Rubber Forest Fish Bones Allah s Will Monkey Butts Fire and Dangerous Things Ng Kim Chew s stories are raw rural and rich with the traditions of his native Malaysia They are also full of humor and spirit demonstrating a deep appreciation for human ingenuity in the face of poverty oppression and exile Ng creatively captures the riot of cultures that roughly coexist on the Malay Peninsula and its surrounding archipelago Their interplay is heightened by the encroaching forces of globalization which bring new opportunities for cultural experimentation but also an added dimension of alienation In prose that is intimate and atmospheric these sensitively crafted resonant stories depict the struggles of individuals torn between their ancestral and adoptive homes communities pressured by violence and minority Malaysian Chinese in dynamic tension with the Islamic Malay majority Told through relatable characters Ng s tales show why he has become a leading Malaysian writer of Chinese fiction representing in mood voice and rhythm the dislocation of a people and a country in transition **New York Times Saturday Book Review Supplement** ,1977
