Public Relations and Nation Building Margalit Toledano, David McKie, 2013-09-02 All public relations emerges from particular environments but the specific conditions of Israel offer an exceptional study of the accelerators and inhibitors of professional development in the history of a nation Documenting and analyzing the contribution of one profession to building one specific nation this book tells the previously untold story of Israeli public relations practitioners It illustrates their often unseen often unacknowledged and often strategic shaping of the events narratives and symbols of Israel over time and their promotion of Israel to the world

It links the profession's genesis including the role of the Diaspora and early Zionist activists to today's private and public sector professionals by identifying their roots in Israel's cultural economic media political and social systems. It reveals how professional communicators and leaders nurtured and valued collectivism high consensus solidarity and unity over democracy and free speech. It investigates such key underpinning concepts as Hasbara and criticizes non democratic and sometimes unethical propaganda practices. It highlights unprecedented fundraising and lobbying campaigns that forged Israeli identity internally and internationally. In situating Israeli ideas on democracy in the context of contemporary public relations theory *Public Relations and Nation Building* seeks to point ways forward for that theory for Israel and for the public relations of many other nations.

Protest Public Relations Ana Adi, 2018-10-09 Global movements and protests from the Arab Spring to the Occupy Movement have been attributed to growing access to social media while without it local causes like Bring Back Our Girls and the Ice Bucket Challenge may have otherwise remained unheard and unseen. Regardless of their nature advocacy activism protest or dissent and beyond the technological ability of digital and social media to connect support these major events have all been the results of excellent communication and public relations. But PR remains seen only as the defender of corporate and capitalist interests and therefore resistant to outside voices such as activists NGOs union members protesters and whistle blowers. Drawing on contributions from around the world to examine the concepts and practice of activist protest and dissent public relations this book challenges this view. Using a range of international examples it explores the changing nature of protest and its relationship with PR and provides a radical analysis of the communication strategies and tactics of social movements and activist groups and their campaigns. This thought provoking collection will be of interest to researchers and advanced students of public relations strategic communication political science politics journalism marketing and advertising and also to PR professionals in think tanks and NGOs.
