subject to multiple recreations informed by changing concerns and insights Mythical narratives have thus attracted the interest of various disciplines from ethnology and history to philosophy literature sociology politics the history of religions and art history This interdisciplinary volume studies how myths are inscribed and recycled within both individual and collective heritage and examines the personal and political implications of multifaceted engagement with myths as one of the forms through which societies try to make sense of their perplexities

Contact and Semantic Development in Late Medieval English Louise Sylvester, Megan Tiddeman, Richard

Ingham, Kathryn Allan, 2025-09-22 The multilingual context of medieval Britain has been a focus of historical linguistic scholarship for some time but Middle English has often been examined in isolation This book analyzes a large dataset of English vocabulary from the late Middle Ages a time when the language was gaining new importance with attention paid to parallel lexical developments in French and Latin It explores lexical and semantic innovations and losses and its findings challenge the notion that native and borrowed words were in competition during the period The book presents a new picture

of ongoing bilingualism in the late medieval period and a growth in vocabulary that heralded the beginnings of standardization in English
