

Learn to overcome the crass demands of flesh and bone, for they warp the matrix through which we perceive the world. Extend your awareness outwards, beyond the self of body, to embrace the self of group and the self of humanity. The goals of the group and the greater race are transcendent, and to embrace them is to achieve enlightenment.

The Human Relief Project Max Malterer,2024-10-19 What would you miss in a world without work In 2038 the Human Relief Project is on a mission to eradicate labor using AI to free humanity from work Bert after years of struggle has finally found his calling as a conductor for the Project Yet as he moves from one relief facility to the next his newfound sense of purpose is increasingly challenged by the disruption his work brings to those he relieves Beyond his work Bert s personal life becomes a microcosm of the conflicts shaping society a partner who never tires of questioning his work a mother struggling to find joy in her post relief life and family and friends deeply divided over the Project s mission Meanwhile

Alex the Project's newly appointed leader faces fierce opposition as she pushes toward a workless future few can truly grasp. With the support of Hive the Project's central AI she methodically removes one obstacle after another: stubborn politicians, greedy governments, and a skeptical public that doesn't always share her conviction in the beauty of a world without work. As the world nears total relief, a series of events from the global stage all the way to Bert's childhood home push Bert and Alex into a shared crisis that tests their beliefs about humanity's future in a post-work era. Set in a meticulously crafted near future shaped by AI, *The Human Relief Project* challenges our understanding of purpose, identity, and humanity itself and ultimately asks: In a world without work, what makes us human? And who gets to decide that?

A Cultural History of Hair in the Age of Empire Sarah Heaton, 2020-12-10. Hair or lack of it is one of the most significant identifiers of individuals in any society. In Antiquity, the power of hair to send a series of social messages was no different. This volume covers nearly a thousand years of history from Archaic Greece to the end of the Roman Empire, concentrating on what is now Europe, North Africa, and the Near East. Among the key issues identified by its authors is the recognition that in any given society, male and female hair tend to be opposites: when male hair is generally short, women's is long; that hair is a marker of age and stage of life; children and young people have longer, less confined hairstyles; adult hair is far more controlled; hair can be used to identify the other in terms of race and ethnicity; but also those who stand outside social norms, such as witches and mad women. The chapters in *A Cultural History of Hair in Antiquity* cover the following topics: religion and ritualized belief; self and society; fashion and adornment; production and practice; health and hygiene; gender and sexuality; race and ethnicity; class and social status; and cultural representations.
