Poppy tears opium heroin fentanyl humankind has been in thrall to the Milk of Paradise for millennia The latex of papaver somniferum is a bringer of sleep of pleasurable lethargy of relief from pain and hugely addictive A commodity without rival it is renewable easy to extract transport and refine and subject to an insatiable global demand No other substance in the world is as simple to produce or as profitable It is the basis of a gargantuan industry built upon a shady underworld but ultimately it is an agricultural product that lives many lives before it reaches the branded blister packet the intravenous drip or the scorched and filthy spoon Many of us will end our lives dependent on it In *Milk of Paradise* acclaimed cultural historian Lucy Inglis takes readers on an epic journey from ancient Mesopotamia to modern America and Afghanistan from Sanskrit to pop from poppy tears to smack from morphine to today's synthetic opiates It is a tale of addiction trade crime sex war literature medicine and above all money And as this ambitious wide ranging and compelling account vividly shows the history of opium is our history and it speaks to us of who we are      [The Human Record: To 1700](#) Alfred J. yet manageable presentation of world history      Technology: A World History Daniel R. Headrick Professor of Social Sciences and History Roosevelt University, 2009-02-25 Today technology has created a world of dazzling progress growing disparities of wealth and poverty and looming threats to the environment Technology A World History offers an illuminating backdrop to our present moment a brilliant history of invention around the globe Historian Daniel R Headrick ranges from the Stone Age and the beginnings of agriculture to the Industrial Revolution and the electronic revolution of the recent past In tracing the growing power of humans over nature through increasingly powerful innovations he compares the evolution of technology in different parts of the world providing a much broader account than is found in other histories of technology We also discover how small changes sometimes have dramatic results how for instance the stirrup revolutionized war and gave the Mongols a deadly advantage over the Chinese And how the nailed horseshoe was a pivotal breakthrough for western farmers Enlivened with many illustrations Technology offers a fascinating look at the spread of inventions around the world both as boons for humanity and as weapons of destruction      The Cambridge World History: Volume 2, A World with Agriculture, 12,000 BCE-500 CE Graeme Barker, Candice Goucher, 2015-04-16 The development of agriculture has often been described as the most important change in all of human history Volume 2 of the Cambridge World History series explores the origins and impact of agriculture and agricultural communities and also discusses issues associated with pastoralism and hunter fisher gatherer economies To capture the patterns of this key change across the globe the volume uses an expanded timeframe from 12 000 BCE 500 CE beginning with the Neolithic and continuing into later periods Scholars from a range of disciplines including archaeology historical linguistics biology anthropology and history trace common developments in the more complex social structures and cultural forms that agriculture enabled such as sedentary villages and more elaborate foodways and then present a series of regional overviews accompanied by detailed case studies from many different parts of the world including Southwest Asia South Asia China Japan Southeast Asia and the Pacific sub Saharan Africa the Americas and Europe      WORLD HISTORY, JOURNEYS Candice Goucher, Linda Walton, 2013-09-13 Using a thematic approach this innovative textbook explores the history of the world from its earliest prehistory to the present age of globalization

**Converging on Cannibals** Jared Staller, 2019-07-02 In Converging on Cannibals Jared Staller demonstrates that one of the most terrifying discourses used during the era of transatlantic slaving cannibalism was coproduced by Europeans and Africans When these people from vastly different cultures first came into contact they shared a fear of potential cannibals Some Africans and European slavers allowed these rumors of themselves as man eaters to stand unchallenged Using the visual and verbal idioms of cannibalism people like the Imbangala of Angola rose to power in a brutal world by embodying terror itself Beginning in the Kongo in the 1500s Staller weaves a nuanced narrative of people who chose to live and behave as jaga alleged cannibals and terrorists who lived by raiding and enslaving others culminating in the violent political machinations of Queen Njinga as she took on the mantle of Jaga to establish her power Ultimately Staller tells the story of

Africans who confronted worlds unknown as cannibals how they used the concept to order the world around them and how they were themselves brought to order by a world of commercial slaving that was equally cannibalistic in the human lives it consumed     *Subject Guide to Books in Print* ,1993     **Library of World History** ,1914     **Tajikistan and the High Pamirs** Robert Middleton,Huw Thomas,Monica Whitlock,Markus Hauser,2008 Now recovering from the misfortunes of the 20th century the travails of Soviet rule and several years of civil war it is able to offer visitors not only its legacies of cultural and ethnic diversity but also unparalleled opportunities for adventure     *Publishers' Circular and Booksellers' Record of British and Foreign Literature* ,1881     **World History** Steven Adams,Michael Adas,Kevin Reilly,1998     **Historian in Chief** Seth Cotlar,Richard J. Ellis,2019-04-23 Presidents shape not only the course of history but also how Americans remember and retell that history From the Oval Office they instruct us what to respect and what to reject in our past They regale us with stories about who we are as a people and tell us whom in the pantheon of greats we should revere and whom we should revile The president of the United States in short is not just the nation s chief legislator the head of a political party or the commander in chief of the armed forces but also crucially the nation s historian in chief In this engaging and insightful volume Seth Cotlar and Richard Ellis bring together top historians and political scientists to explore how eleven American presidents deployed their power to shape the nation s collective memory and its political future Contending that the nation s historians in chief should be evaluated not only on the basis of how effective they are in persuading others Historian in Chief argues they should also be judged on the veracity of the history they tell     *People of the Earth* Brian M.
