The Impact Of Austerity Measures On People And Local Government:

The Impact of Austerity Measures on People and Local Government Sebwa Domingos, 2014 There is a broad consensus that the impact of austerity measures on people in the United Kingdom will vary from place to place However what is less clear is that some people in some local authorities will be hit hardest The pace in which cuts have been wielded by the coalition government has allowed local authorities little scope to maneuver and devise a good strategy for dealing with the huge loss of revenue in their local budgets This book seeks to analyze how cutbacks pose severe challenges to local authorities in the United Kingdom even threatening their ability to provide adequate delivery of benefits and public services to their constituents *Law, Localism, and the Constitution* John Stanton, 2023-03-24 Local government affects us all Wherever we live in towns cities villages or the smallest of communities there are locally elected councils tasked with representing people's interests in the running of the local area This involves inter alia providing public services maintaining local spaces and acting as a level of democratic governance within the broader constitutional and executive structure of the state To fulfil these responsibilities though local government must be democratically legitimate it must have at its disposal reasonable means and resources to function and it must enjoy a healthy and balanced relationship with centralised government This book explores and analyses the extent to which local government in the different parts of the United Kingdom is able to function effectively and democratically It draws from local councillors' views in analysing the state of local government under the current constitutional and governmental arrangements discussing issues such as councils' relationships with central government citizen engagement finance and public services and the impact of recent reforms It contrasts and compares the different approaches adopted in England Scotland Wales and Northern Ireland also setting out and discussing possible reforms of local government across the United Kingdom While the focus is on the United Kingdom the work includes a comparison with other relevant jurisdictions *Inclusionary Housing and Urban Inequality in London and New York City* Yuca Meubrink, 2024-09-10 Municipalities around the world have increasingly used inclusionary housing programs to address their housing shortages This book problematizes those programs in London and New York City by offering an empirical research based perspective on the socio spatial dimensions of inclusionary housing approaches in both cities The aim of those programs is to produce affordable housing and foster greater socio economic inclusion by mandating or incentivizing private developers to include affordable housing units within their market rate residential developments The starting point of this book is the so called poor door practice in London and New York City which results in mixed income developments with separate entrances for affordable housing and wealthier market rate residents Focusing on this poor door practice allowed for a critical look at the housing program behind it By exploring the relationship between inclusionary housing new build gentrification and austerity urbanism this book highlights the complexity of the planning process and the ambivalences and interdependencies of the actors involved Thereby it provides evidence that the provision of affordable

housing or social mixing through this program has only limited success and above all that it promotes in a sense through the back door the very gentrification and displacement mechanisms it is supposed to counteract This book will be of interest to researchers and students of housing studies planning and urban sociology as well as planners and policymakers who are interested in the consequences of their own housing programs **Water Politics** Farhana Sultana,Alex Loftus,2019-09-06
