Hartmut Walravens, 2009-03-13 Digitisation has been a hot topic in newspaper librarianship for some years now it came as a godsend for many bulky and space consuming collections The major part of this volume comprises the papers given at the international conference on newspaper digitisation held at the University of Utah Salt Lake City May 2006 and presents the state of the art including experiences from current British and North American projects This material is complemented by presentations from the World Library and Information Congress in Seoul August 2006 focusing on the East Asian Newspaper situation

News for the Rich, White, and Blue Nik Usher, 2021-07-06 As cash strapped metropolitan newspapers struggle to maintain their traditional influence and quality reporting large national and international outlets have pivoted to serving readers who can and will choose to pay for news skewing coverage toward a wealthy white and liberal audience Amid rampant inequality and distrust media outlets have become more out of touch with the democracy they purport to serve How did journalism end up in such a predicament and what are the prospects for achieving a more equitable future In News for the Rich White and Blue Nikki Usher recasts the challenges facing journalism in terms of place power and inequality Drawing

on more than a decade of field research she illuminates how journalists decide what becomes news and how news organizations strategize about the future Usher shows how newsrooms remain places of power largely white institutions growing more elite as journalists confront a shrinking job market She details how Google Facebook and the digital advertising ecosystem have wreaked havoc on the economic model for quality journalism leaving local news to suffer Usher also highlights how the handful of likely survivors well funded media outlets such as the New York Times increasingly appeal to a global placeless reader News for the Rich White and Blue concludes with a series of provocative recommendations to reimagine journalism to ensure its resiliency and its ability to speak to a diverse set of issues and readers *History and Present Condition of the Newspaper and Periodical Press of the United States* Simon Newton Dexter North,1884
