The Inquisition. A Political and Military Study of Its Establishment ... With a Preface by Hilaire Belloc Hoffman NICKERSON,1923 *Heresies of the High Middle Ages* Walter Leggett Wakefield,Austin Patterson Evans,1991 More than seventy documents ranging in date from the early eleventh century to the early fourteenth century and representing both orthodox and heretical viewpoints are included **History**,1926 Chronological coverage with articles on social political cultural economic and ecclesiastical history Book Review Section provides up to date critical analyses of up to 600 titles in each volume *The Papacy and Crusading in Europe, 1198-1245* Rebecca Rist,2011-11-03 An internal crusade is defined as a holy war authorized by the pope and fought within Christian Europe against those perceived to be foes of Christendom either to recover property or in defense of the Church or Christians This study is therefore not concerned with those crusades authorized against Muslim enemies in the East and Spain nor with crusades authorized against pagans on the borders of Europe Up to now these crusades have attracted relatively little attention in modern British scholarship This in spite of their undoubted European wide significance and an increasing recognition that the period 1198 1245 marks the beginning of a crucial change in papal policy underpinned by canon law This book discusses the developments through analysis of the extensive source material drawn from unregistered papal letters placing them firmly in the context of ecclesiastical legislation canon law chronicles and other supplementary evidence It thereby seeks to contribute to our understanding of the complex politics theology and rhetoric that underlay the papacy s call for crusades within Europe in the first half of the thirteenth century **Christianity, The Other, and The Holocaust** Michael R. Steele,2003-02-28 According to the author Christianity offers a powerful system of rewards and incentives to create cultural uniformity Those who do not join in this cultural uniformity become anathematized oppressed marginalized and ultimately removed from the Christian circle of moral obligation Using culture studies as a framework for analysis Steele investigates the ways in which Christianity created cultural conditions based on a theology of violence and the use of sacred violence to foster behaviors that would lead to the involvement of millions of perpetrators and bystanders during the many instances of extreme violence used against the Other over the centuries As the original Disconfirming Other in the Christian cultural world Jews often served as the primary target Thus there was a system of definitions rewards incentives and victims already in place when the Nazis came to power Calling for a re evaluation of the cultural practices and values that have developed within Christianity

over time this important new book helps account for the phenomenon of the Nazi perpetrators and bystanders during the Holocaust Framing the Holocaust as a late but logical development in a long series of violent responses by Christianity to the Other those who stand outside the Christian world either by geographical accident religious tradition or some other factor the author attempts to show how the Holocaust while not a specifically Christian event was nevertheless sanctioned and conditioned by other events in the history of Christianity Using culture studies to frame his analysis Steele focuses on historical antecedents that help account for the apathy of bystanders and point to the preexistence of a moral framework supporting and empowering the perpetrators of the Holocaust This unique perspective concludes that the Nazis invented almost nothing with regard to the Shoah and that instead a long standing insistence on cultural hegemony played a much bigger role in the attempted destruction of the Jewish community

Bulletin of Recent Books Added to the Public Library of the City of Boston Boston Public Library, 1924 *The Bookman*, 1924 **The Jews of Medieval France**

Emily Taitz, 1994-11-21 This book studies the Jewish community of Champagne from the fifth century to the expulsion of 1306 It documents the growth and decline of the community examines its interrelationships with the larger Christian culture and presents a model for the study of other communities The economic and political consolidation of the county coupled with the development of Jewish self government and a system of education in Talmudic law were important factors in the growth of Champagne s Jewish community The subsequent decline of the community in the mid 13th century was also attributable to economic and political factors as well as a growing church influence *The Jews of Medieval France* The Community of Champagne also offers an in depth analysis of women s place in the Jewish and gentile worlds of medieval France Details and comparisons of women s status within the family and in business and examples of attitudes toward women in literature and law are all thoroughly integrated into the text **America**, 1924
