

A vibrant illustration of a golden path leading to a city under a rainbow. The path is made of golden bricks and leads towards a city with tall, golden spires. A large, multi-colored rainbow arches over the city. The sky is blue with white clouds, and the ground is green with trees and flowers.

Revelation 21:21

**“The twelve gates were twelve pearls
each individual gate was of one pearl
And the street of the city was pure
gold, like transparent glass.”**

The Gold Of Revelation:

The Theology of the Book of Revelation Richard Bauckham, 1993-03-04 The Book of Revelation is a work of profound theology But its literary form makes it impenetrable to many modern readers and open to all kinds of misinterpretations Richard Bauckham explains how the book s imagery conveyed meaning in its original context and how the book s theology is inseparable from its literary structure and composition Revelation is seen to offer not an esoteric and encoded forecast of historical events but rather a theocentric vision of the coming of God s universal kingdom contextualised in the late first century world dominated by Roman power and ideology It calls on Christians to confront the political idolatries of the time and to participate in God s purpose of gathering all the nations into his kingdom Once Revelation is properly grounded in its original context it is seen to transcend that context and speak to the contemporary church This study concludes by highlighting Revelation s continuing relevance for today
