HARCOMBE,2020 The Harcombe Diet Zoe Harcombe,2010 The Harcombe Diet is the result of 20 years of research trying to answer the question Why on earth do we have an obesity problem let alone an epidemic when we want more than anything else in the world to be slim This research has led dietician and author Zo Harcombe to several discoveries The calorie theory eating less weightloss is fundamentally wrong The current diet advice is actually the cause of the obesity epidemic A better public health message to embed in people s minds is Eat real food The only way to lose weight is to work with your body never against it Weight gain and loss depends on what we eat what we eat with what and how often we eat In no way is it as simplistic as just how much we eat Overweight people are not greedy weak willed or in need of a psychiatrist They are victims of the wrong advice So how is the Harcombe Diet different from other diets It really works Zoe says I set out to understand why we had an obesity epidemic and to design a diet that would eliminate hunger and food cravings I did not set out to design a diet that would lose people 7kgs in 5 days and yet at the time of going to print this is the record for Phase 1 As a bonus the most common themes in the endless testimonials are I m not hungry My cravings have disappeared I feel great I ve got more energy than I ve ever known and This is the last diet I will ever need It fundamentally rejects the calorie theory upon which 99% of diets are based The new and unique contribution of The Harcombe Diet is the discovery that there are three very common medical conditions that cause insatiable food cravings and that these conditions in turn are caused by eating less calorie restricted diets By following Zo s step by step instructions you ll not only lose weight and gain health and vitality but you ll discover an eating plan that you can stick to for life Harcombe Diet Zoë Harcombe,2008 The bestselling diet book on Amazon co uk What is The Harcombe Diet The Harcombe Diet is designed to not make you hungry and to not have you craving food This means that you can stick to it and start losing weight The Harcombe Diet has three Phases Phase 1 just 5 days long is designed to do the following To kick start your new way of eating with a programme that is short enough to stick to but long enough to have a significant impact on Candida Food Intolerance and Hypoglycaemia To attack food cravings head on by attacking Candida Food Intolerance and Hypoglycaemia head on when motivation and will power are highest at the start of a new diet To achieve significant weight loss To continue to win the war against Candida Food Intolerance and Hypoglycaemia and so to have continued impact on food cravings To continue the great start made in Phase 1 but with a more varied diet which is easier to stick to and more enjoyable To change your eating habits forever To get you eating real food and nourishing your body and to put you off processed food and junk as much as possible Phase 3 for as long as you want to maintain your weight is designed to do the following To put you back in control of your eating by giving you long term control over food cravings To enable you to eat without cravings for life To enable you to eat whatever you want almost whenever you want but with you managing the outcome The Harcombe Diet what it doesn t do It does not count calories or carbohydrates or fat units or points it does not count anything It does not limit quantities of food It does not put your life on hold while you lose weight It does not come with or need an exercise plan It does not try and get you to eat less

and do more The Harcombe Diet what it does do It defines and meets all the characteristics of a successful diet It lets you eat real food in unlimited quantities It gives you three simple rules to lose weight and stay slim for life It encourages you to work with your body not against it It lets you get on with your life and eat to live not live to eat I've been asked by journalists if you don't agree with the Eat less do more advice what do you agree with My answer is Eat better and do whatever you like I've also been asked is the diet low carb or low fat and the answer is neither It is good carbs and good fats in whatever quantities you want just not at the same meal
