

The Hobbit Hero's Journey

In this essay, I'm going to be talking about the relation between The Hero's Journey Model by Joseph Campbell and how his storytelling structure applies to Tolkien's The Hobbit novel. In order to give some context, we need to ask the right questions. What is fantasy and what kind of fantasy does The Hobbit belong to? What is portal quest fantasy and how important it is to set the world? What is the definition of a hero and what kind of hero does Tolkien use in The Hobbit? "In a hole in the ground there lived a hobbit. Not a nasty, dirty, wet hole, filled with the ends of worms and an oozy smell, nor yet a dry, bare, sandy hole with nothing in it to sit down on or to eat: it was a hobbit-hole, and that means comfort." J.R.R. Tolkien That is how Tolkien began writing The Hobbit, at first John Ronald did not even know what a Hobbit was, as weird as it may sound, at that moment Tolkien himself might have been possessed by the world he was about to create. The ideas presented by Campbell in his book are used to analyse and study novels and their structures. There is nothing new on this book that has not been seen before, the ideas on it are ancient. What Campbell did was putting all his thoughts and structures together, that is how he discovered the patterns behind every story ever written. In his study, he discovered that in essence, all stories are the same. They might vary and may be told differently but they all come back to the same steps. It would be interesting to note that The Hobbit was written and published many years before Campbell began doing his study on The Hero's Journey. This journey is something that everyone has in themselves as if it was part of us and our DNA when we make up stories in either bigger or smaller ways, we have the tendency to use a certain approximation of the formula that Campbell theorised. So what makes up the monomyth? There are two levels of detail; the first one would be the cycle itself, which would be made of the departure, the initiation and the return. So the departure is the departure from the normal or the existing of non-magic world where the character lives, which comes more apparent later on, the departure is focused on this idea of moving away. It gets broken down into different parts, that being the call to adventure, the refusal of the call, the supernatural aid, the crossing of the first threshold, and the belly of the whale. The next stage of the cycle is the initiation, is not in the sense of getting started on something but the things in which the hero does to get initiated into the world of the magical and the fantastic. The purpose of the hero's journey is to take a character out of normality then change them in some way, and finally return them in their improved state. This contains 3 different options, the road of trials, the meeting with the goddess. The hero's journey in the hobbit begins with the first phase, known as "the departure", this departure is not done right away, there are a series of steps we need to have in mind for it to take place as necessary and as natural as possible. In the first instance "Bilbo" the protagonist lives his life on a routine in the shire, and that's how is portrayed monotonous and unaltered space. Nothing changed and Bilbo likes that. That's when Gandalf shows up to carry out the second step of the journey, the call to an adventure. The mage lets him know that he requires someone to take on an adventure with. But

Midgard and Middle-Earth Robin Materne, 2015-01-14 Seminar paper from the year 2014 in the subject English Language and Literature Studies Literature grade 1.7 University of Heidelberg Anglistisches Institut course Introduction to Fantasy Literature language English abstract The influence of the Edda as an inspiration for stories is wide spread across our modern culture There are comic books and movies about the god of thunder Thor books have been written that are set in the realm of Asgard or Midgard and the influence of the old Norse myths can clearly be seen in the texts of many bands especially Metal bands like Manowar or Amon Amarth Another huge impact on story telling is the work of J R R Tolkien Many writers of our time are influenced by his world building and of course the release of the movies based on his books made way for the fantasy genre to become known and loved by a broad audience But even Tolkien has not invented his entire world out of thin air It is reasonable to assume that he was like many other artists also influenced by Norse myths The

goal of this paper is to show that Tolkien's characters and the stories in *The Lord of the Rings*, *The Hobbit* and *The Silmarillion* are heavily influenced by the Edda and similar Norse myths. There will be a comparison of different characters, races and places in Middle Earth and of the Edda. Other possible influences like Greek or Roman Mythology, classical fairy tales or the Arthurian Saga were surely important for the development of Middle Earth and its inhabitants but they have to be ignored in this essay. One of the most important aspects of Tolkien's creative work is of course the linguistic approach he took. There are several other works even by Tolkien himself that take a look on this aspect but regarding the length of this paper this shall not be discussed. The essay starts with a comparison of Odin, the highest god in Norse mythology and characters of Tolkien, then goes to the race of dwarves to finally look at other aspects of the story and how they might have their roots in the Edda.
