Amazing Bigfoot Encounters of West Coast North America George Mitrovic,2019-03-09 Who or what is Bigfoot The simplest description is of a huge hairy muscular bipedal creature like a big ape and covered in hair ranging from black to brown to red to white depending it seems on the season as well you might see The average heights reported are six to nine feet tall Numerous North American peoples have mythologies concerning this mysterious creature and that would be an enormous book in its own right I will stick to this which is the largest set of books on Bigfoot ever published which due to its size It is in four volumes in paperback format Over twelve hundred pages of Bigfoot encounters from all over the North America All of the sources are in the bibliography and are published or available on very reputable sites on the internet such as BFRO Many are anonymous but I believe that this can be disregarded Bigfoot is still a controversial subject You might

notice that some of your favorite reports of Bigfoot might be missing I know that your Grandma saw something in the local lake or woods or sky but she never did mention when and sometimes even where so Grandma's sighting will not be included This also applies to plenty of other sightings No dates so no entry Even a year is enough and the name of the locality Neither of these is a no show But there are thousands more so find out about what might have or still might be lurking in your neighborhood This is not your normal road map as we visit all over the continent Happy travelling You will be amazed as to what you will find in your state or even your neighborhood Not all states start at 1800 either but I will try and start with datable and generally findable events Some have plenty of sightings some have very few and a lot of places that you thought had none actually had quite a few I have seen various paranormal research organizations on the internet disappearing without trace and all of their accumulated data and knowledge with them That is why I like books Even after the last website crashes there might well be a lone paperback sitting in a thrift shop safe with its repository of knowledge Is Bigfoot rare This book says NO You be the judge *Tracking Bigfoot* Jenna Vale,Greg Cox,2018-12-15 Hikers and campers have long been familiar with the legend of the hairy giant in the woods of the Pacific Northwest but readers of this gripping volume will find that Bigfoot sightings have been reported all over North America There are so many grainy videos blurry photographs and strange audio recordings but what exactly have they captured A missing evolutionary link An undiscovered species A simple hoax Readers will learn of some of the most famous cases of Bigfoot sightings as well as some of the most famous fakes They will learn the suspected biology and genetics of this mysterious cryptid and be encouraged to evaluate evidence with features such as the Debunk It sidebar **Living Among Bigfoot: First Contact** Tom Lyons,2018-01-15 The most shocking TRUE encounter you will ever read In the summer of 2008 Tom made the move from Wisconsin to Idyllwild California where he intended to embrace a change of scenery and a healthier lifestyle while continuing to grow his successful online business Shortly after the move he began experiencing strange and grim happenings around his property He initially presumed that someone was messing with him that was until he came face to face with something he never thought existed **Bigfoot 50 Years Later** John Kuykendall,2018-08-30 Most people think that we do not know much about the behavior of sasquatches however that simply is not the case Through years of study and eye witness testimony we have seen the same behavior patterns over and over giving us a fairly good understanding of at least many aspects of their behavior and lifestyles even if we do not usually know why they do what they do This page contains a discussion on the various aspects of sasquatch behavior that we have seen and studied Crepuscular active both day and night however they do tend to be most active in the evening and early night and again in the early morning hours before dawn and into the morning We really do not know their exact organization at this time but based on field observations over many years it appears that they live in family units composed of a mature male one or more mature females and whatever juveniles still remain with the family **Bigfoot of California** George Mitrovic,2023-06-11 Who or what is Bigfoot The simplest description is of a huge hairy muscular bipedal

creature like a big ape and covered in hair ranging from black to brown to red to white depending it seems on the season as well you might see The average heights reported are six to nine feet tall Numerous North American peoples have mythologies concerning this mysterious creature and that would be an enormous book in its own right I will stick to this which is the largest set of books on Bigfoot ever published It is in numerous volumes in ebook and paperback format Over fourteen hundred pages of Bigfoot encounters from all over North America All of the sources are in the bibliography and are published or available on very reputable sites on the internet such as BFRO Many are anonymous but I believe that this can be disregarded Bigfoot is still a controversial subject The largest statewide sightings are in their own books such as this one on California Others are in small groups of states ne You might notice that some of your favorite reports of Bigfoot might be missing I know that your Grandma saw something in the local lake or woods or sky but she never did mention when and sometimes even where so Grandma s sighting will not be included This also applies to plenty of other sightings No dates so no entry Even a year is enough and the name of the locality Neither of these is a no show But there are thousands more so find out about what might have or still might be lurking in your neighborhood This is not your normal road map as we visit all over the continent Happy travelling You will be amazed as to what you will find in your state or even your neighborhood Not all states start at 1800 either but I will try and start with datable and generally findable events Some have plenty of sightings some have very few and a lot of places that you thought had none actually had quite a few I have seen various paranormal research organizations on the internet disappearing without trace and all of their accumulated data and knowledge with them That is why I like books Even after the last website crashes there might well be a lone paperback sitting in a thrift shop safe with its repository of knowledge Is Bigfoot rare This book says NO You be the judge Read firsthand accounts in their own words and spelling as well as second person and third person accounts from many sources both in printed format as well as from respectable Websites to my understanding This may seem disjointed at first but it shows the emotions and reactions of the observer much better than a long dry list of third hand reports So the reports will be a mixture of first person second person and third person as well as historic Many of the reports are also in the witness s own written words as well including spelling and sentence structure I prefer the authenticity of the reports as I am reporting their words not mine Editing is for tidying up purposes only Sometimes the spelling is amazing but the report itself is still true to form

On the Trail of

Sasquatch Gary Swanson, 2020-07-15 This collection of Sasquatch encounters includes several reports that took longer than usual to complete due to additional correspondence to confirm through additional witnesses and other sources some heretofore unreported instances of questionable relationships between our story submitters and their Bigfoot acquaintances An example of the necessity we felt to confirm some of the more unusual reports was the person who purchased a rural property and from the outset he experienced an encounter with some resident Sasquatch which was quite unpleasant According to the submitter he was pestered and harassed by these creatures until it came down to a violent confrontation

causing him to use a firearm There were no injuries but he learned too late how to relate to these resident Sasquatch and he sold the home and property and returned to the city Another couple had back to back encounters with Sasquatch and they report how the clever Bigfoot actually changed their methods of disguising their presence by using tree branches to erase their own tracks to their secret fishing hole in the Washington state mountains Forced to abandon their second excursion by a sudden forest fire our reports had the experience of a lifetime Another submitter inherited a lakeshore cabin in Michigan and once again was reunited with Sasquatch he had first met as a child when visiting his grandfather Both human and Sasquatch were reunited over the gravesite of the grandfather s golden Labrador companion whom both human and Sasquatch shared memories This collection seems to share a common thread of closer involvement between species than most and even though the research required more checks and balances we thoroughly enjoyed sharing our submitters excitement

Tracking Sasquatch Gary Swanson, Wendy Swanson, 2018-03-14 A Bigfoot sized thank you to our growing list of friends who have contributed their stories of Sasquatch sightings and encounters This is the fourth collection of never before printed Bigfoot stories You will notice that the contributors to this book are much more diverse in locations than our prior publications This book has several surprises probably our biggest revelation was from a gentleman who was as amazed as we when he finally opened his great grandfather s personal diary He had left it unread for years allowing for the sadness to lessen and when finally reading the hand written notes he found himself following his great grandfather s encounters with Sasquatch and the contact took place on of all places Oak Island Nova Scotia You will read about Kiekhaefer Mercury Outboards secret test facility at Lake X in Florida and their resident Sasquatch Contributors from the upper Midwest areas of Michigan and Minnesota also reported their experiences Mississippi managed to find room to add another S to its name but this time it stands for Sasquatch Included are many exciting stories from a wide variety of Oregon residents and tourists in areas that the publishers know well A surprising twist to Oregon s most outrageous city turned out to also involve members of a Sasquatch family that city being none other than the infamous Rajneeshpuram a commune of 18 000 worshippers who poisoned a city to sway an election Sasquatch played a big part in the adventures of modern day gold seekers in Oregon s coastal mountains and you can almost re live some of these adventures enough to feel the intense fear when a soccer ball sized rock is thrown by a wild hairy mountain ape as you re running for your life There is also a record of Sasquatch attacking a couple in a wilderness area in Utah and another one interrupting a vacation on a lake in Idaho You ll read about two Bigfoot encounters that took place in Northern California where Sasquatch sightings take place almost as frequently as in Oregon I Gary Swanson had cause to think back to my personal encounter when hiking in a Southern Oregon gold mining area when my recollection became clouded with doubt when my photo failed to accurately show what I knew I had seen and further mental review allowed me to remove all further doubt and to officially declare that I had really seen Sasquatch A member of Oregon s senate once said to a good friend of mine Denny I know what I saw I was stone cold sober and there was

this apelike being just 10 yards away facing me Those reddish yellow eyes seemed like they were reading my mind and then it turned and in five seconds I couldn't even hear it running anymore This was a moment so exciting to me and so amazing I want to tell the world but I can't because I'd never get reelected again I and so many more people feel the same way but until proof is at hand at least we are among very credible friends We hope that you will enjoy the reports as much as we have and we can take comfort in the fact that not everything has been discovered so there are still roads untraveled for us all to take
