Holbrook one of the heroes of this book once told me that he had mused his way to the conclusion that a school is to a community what the skin is to a body You see the rash on your arms and you might think that it s the skin that s sick when actually the disease is somewhere deep inside and it is only reflected in the skin Or conversely when the skin is silky smooth soft and supple and pleasant to the touch it s because the entire inside of the body is healthy It has just occurred to me that I have written a book to illustrate what John said I must confess that at times in order to better move the story along two or three real life persons have been shoved into one or one person has been split up into two Chronology has not been always rigorously followed either and real lives have been twisted to allow the sap of fiction to better flow to the heart and mind of the reader Wait Did I say fiction I ll take that back For this is not a fictional book The stories all of them without any exception the stories they are true And if they sometimes seem far fetched it s only because many times reality is stranger than fiction and also more pitiless and more brutal I have kept some of the original quizzes essays newspaper articles and classroom drawings to give the book its well deserved air of authenticity If you are a teacher you will read the book and nod in agreement If you are a parent now you know a teacher s life is not the bowl of cherries you always thought it was If you are a principal or a superintendent you will naturally want to burn the book in the public square this book is a mirror and you will not like what you see Some of the real names of the characters have been maintained Marina Argueta Elizabeth Ramirez Franklin Sosa Jose Alberto Ochoa and the rest of the Ochoa clan Hector Mandujano aka Camar n and most of the soccer players on the KCHS varsity team have given me kind permission to use their real life names Only one character in the entire book is completely fabricated and I will allow you the reader the investigative pleasure of discovering who that character is on your own If you like the book please recommend it to your friends to that nasty brother in law of yours who gets drunk on Thanksgiving to the guy sitting next to you in the carpool or to your fellow teacher in the teacher s lounge But don t lend it to him Let him buy his own copy You see I live off the books I sell Author Saileanu Cristian

Historical Dictionary of Nuclear, Biological, and Chemical Warfare Benjamin C. Garrett, 2017-08-25 The history of biological weapons BW chemical weapons CW and nuclear weapons is complicated It can be disturbing tragic and occasionally encouraging It is rarely amusing although the names selected for certain weapons suggest a casualness toward the consequences of their use Atomic Annie Blue Peacock Dew of Death Fat Man Flying cow George Gilda Helen of Bikini Hurricane Katie Little Boy Lulu Mike Red Beard Sewer Pipe Squirt Use of BW and CW in warfare has produced mixed results in terms of effecting the outcome of a battle or campaign despite this mixed record both weapon types have attracted intense interest and strong advocacy for further use The sole experience with use of nuclear weapons in warfare is viewed as hastening surrender by Japan created competition among nations to develop more such weapons and influenced efforts to ban any use or even stockpiling of such weapons Each of these three weapon types has its own peculiar history as recounted in this dictionary This second edition of

Historical Dictionary of Nuclear Biological and Chemical Warfare contains a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on terms related to NBC warfare ranging from basic descriptions of substances used to details on incidents and episodes where NBC weapons were used historical events persons important to NBC warfare countries where such weapons have been developed or used and international treaties and treaty related organizations

S.A.S. in Tuscany, 1943-1945 Brian Lett, 2011-12-01 While always dangerous and daring SAS operations are by no means invariably successful and when they go wrong they do so very badly The first of the three operations covered in this book SPEEDWELL 2 saw six men drop blind into Northern Tuscany on 8 September 1943 by chance the day of the Italian Armistice But with no radios or air ground support their courageous three week operation ended in disaster four were captured and executed and only one got out The second and third operations GALIA winter 44 45 and BLIMEY April 1945 provided contrasting results GALIA 34 men led by Captain Walker Brown tied up many thousands of enemy troops for nearly two months under extreme winter conditions an extraordinary achievement thanks in measure to cooperation with an SOE mission led by Major Gordon Lett the author's father BLIMEY sadly achieved little and the reasons for the success and failure of these two operations are carefully analyzed This book adds valuable new information on SAS operations in WWII
