Why are Americans so stupid and insulting ?

this is what a American said about the ENGLISH footie team.... It is kinda true tho. I'm American so maybe my opinion is bias. But England people... what's the term ...British? They do over-rate themselves, I understand they have hope for there country, their rooting them on. But sometimes they get a little extreme with it. I mean hey if you've won World Cup 5 times, go right ahead be cocky, you guys won 5 times so why should i doubt your team won't win again. But England only won only once, 40/50 years ago. I mean it can happen again, I respect that you root for your country. But they go a little crazy with it. I can't think of any examples off the top of my head but yeah..

Triangulating Methodological Approaches in Corpus Linguistic Research Paul Baker, Jesse Egbert, 2016-06-10 Contemporary corpus linguists use a wide variety of methods to study discourse patterns This volume provides a systematic comparison of various methodological approaches in corpus linguistics through a series of parallel empirical studies that use a single corpus dataset to answer the same overarching research question Ten contributing experts each use a different method to address the same broadly framed research question In what ways does language use in online Q A forum responses differ across four world English varieties India Philippines United Kingdom and United States Contributions will be based on analysis of the same 400 000 word corpus from online Q A forums and

contributors employ methodologies including corpus based discourse analysis audience perceptions Multi Dimensional analysis pragmatic analysis and keyword analysis In their introductory and concluding chapters the volume editors compare and contrast the findings from each method and assess the degree to which triangulating multiple approaches may provide a more nuanced understanding of a research question with the aim of identifying a set of complementary approaches which could arguably take into account analytical blind spots Baker and Egbert also consider the importance of issues such as researcher subjectivity type of annotation the limitations and affordances of different corpus tools the relative strengths of qualitative and quantitative approaches and the value of considering data or information beyond the corpus Rather than attempting to find the best approach the focus of the volume is on how different corpus linguistic methodologies may complement one another and raises suggestions for further methodological studies which use triangulation to enrich corpus related research

9 and 11 Kim H. Veltman, 2015-02-23 This is an unlikely story of true events The Day that changed the World in the United States bombing of the Twin Towers the Day of Fate in Germany and the Day of Destiny in Israel are all connected with the 11th day of the 9th month These 9 11 dates entail much more than three events in three countries In the Hebrew tradition they include all the calamities that have befallen the Jews from the time of the Destruction of the First Temple and Second Temple the Expulsion of the Jews from England France Spain through to the Holocaust in World War II These events are in turn part of a larger history which linked the same date with cosmic events such as a day of Cosmic Battle and the Birth of Venus and gave special significance to the numbers 9 and 11 Part one explores this tradition and surveys a range of sources from a former German officer involved in the plot against Hitler to various conspiracy theories These events are also related to swastikas and hexagrams Since World War II there has been a trend to associate swastikas with an evil German Aryan tradition and hexagrams e g six pointed Star of David with a good

Jewish Semitic tradition Historically a Jewish connection with the Star of David is late Mediaeval rather than Biblical Swastikas and hexagrams are found in both the Aryan and the Semitic tradition Hence the new trend distorts a complex history More disturbingly in the guise of tolerance and political correctness one version of stories is highlighted others are being suppressed and truth is endangered **Share This Too** CIPR (Chartered Institute of Public Relations),2013-08-06
