Y A-t-il Une Question De L'image En Islam:

Le monde islamique et l'image Dominique Clévenot, Isabelle Touton, 2001 **Y A-t-il Une "question de L'image en Islam" ?** , 2013 Y a-t-il une "question de l'image" en Islam ? Silvia Naef, 2015-03-15 Cette nouvelle édition entièrement mise à jour traite d'une des idées reçues sur l'Islam celle d'une civilisation sans images Or si l'image a-t-elle effectivement bannie du culte et des lieux de prière elle n'en a pas moins existé sous des formes multiples Le livre offre un bref parcours chronologique et géographique soulignant cette diversité en rupture avec une vision orientaliste d'un art islamique immuable **Y A-t-il Une Question de L'image en Islam ?** Silvia Naef Silvia Naef, 2016 **Hermeneutics of the Ban on Images, The** Hartenstein, Friedhelm, Moxter, Michael, 2021 Recognizing both the potential of biblical prohibition of images for causing religious conflict and the promise of a more nuanced appreciation of the role of images in human experience this book constructs a framework for understanding the place of images and their prohibition within the biblical text and Christian religious practice **Religion, Media, and Marginality in Modern Africa** Felicitas Becker, Joel Cabrita, Marie Rodet, 2018-02-02 In recent years anthropologists historians and others have been drawn to study the profuse and creative usages of digital media by religious movements At the same time scholars of Christian Africa have long been concerned with the history of textual culture the politics of Bible translation and the status of the vernacular in Christianity Students of Islam in Africa have similarly examined politics of knowledge the transmission of learning in written form and the influence of new media Until now however these arenas Christianity and Islam digital media and old media have been studied separately Religion Media and Marginality in Modern Africa is one of the first volumes to put new media and old media into significant conversation with one another and also offers a rare comparison between Christianity and Islam in Africa The contributors find many previously unacknowledged correspondences among different media and between the two faiths In the process they challenge the technological determinism the notion that certain types of media generate particular forms of religious expression that haunts many studies In evaluating how media usage and religious commitment intersect in the social cultural and political landscapes of modern Africa this collection will contribute to the development of new paradigms for media and religious studies Contributors Heike Behrend Andre Chappatte Maria Frahm Arp David Gordon Liz Gunner Bruce S Hall Sean Hanretta Jorg Haustein Katrien Pype and Asonzeh Ukah Getting the Picture Jason E. Hill, Vanessa R. Schwartz, 2020-09-08 Powerful and often controversial news pictures promise to make the world at once immediate and knowable Yet while many great writers and thinkers have evaluated photographs of atrocity and crisis few have sought to set these images in a broader context by defining the rich and diverse history of news pictures in their many forms For the first time this volume defines what counts as a news picture how pictures are selected and distributed where they are seen and how we critique and value them Presenting the best new thinking on this fascinating topic this book considers the news picture over time from the dawn of the illustrated press in the nineteenth century through photojournalism's heyday and the

rise of broadcast news and newsreels in the twentieth century and into today's digital platforms. It examines the many kinds of images: sport, fashion, society, celebrity, war, catastrophe, and exoticism, and many mediums including photography, painting, wood engraving, film, and video. Packed with the best research and full colour illustrations throughout, this book will appeal to students and readers interested in how news and history are key sources of our rich visual culture.

The Image of the Prophet between Ideal and Ideology Christiane J. Gruber, Avinoam Shalem, 2014-10-24. Disziplin: re Grenzen überschreitend zielt der Band darauf ab, die Visualisierung Mohammeds in der westlichen Welt vis-à-vis mit dessen Darstellung im Islam zu untersuchen. Dabei wird das Material weder geographischen oder sprachlichen Sphären zugeordnet, noch werden Textquellen isoliert von bildlichen Darstellungen betrachtet. Die Beiträge eröffnen vielmehr einen thematischen und theoretischen Dialog über die Frage, wie der Prophet in verschiedenen kulturellen Traditionen in Europa und Amerika und in der Welt des Islam vom Mittelalter bis in die Gegenwart vergegenwärtigt wurde.

Triumph and Trauma of Images Jacques Picard, 2025-03-31. What humankind consider to be truths does not enter our world naked. Rather, it was and is expressed in symbols, images, archetypes, and role models. As an ingredient of emotions of religious, cultic, or collective orders, art and artists in particular played an important role in the transformation of our world. To be tainted by the stigma of cult and idolatry or to enable life and works of art through the incarnation of ideas and visions, such contradictions continue to this day in the dispute over the power of images. Their triumph as a mark of sovereignty goes hand in hand with the trauma they trigger in both individuals and communities. They evoke the horror and the sacred and banish both at the same time. They are attributed a cultic aura and likewise suspected of being a false fetish in a world of globally traded commodities. From antiquity to modernity, these facets and tensions are critically explored in Judaism, Christianity, and Islam, as well as in philosophical discourses and secular ways of life. Our cultural history refers the viewer to the democratic or authoritarian present. Images of hope and resurrection, the fall into hell of war, and the abyss of the Holocaust are significant for human memory in art and media today, and they require our reflection. Look inside: Images of the authentic and betrayal through images, art, image controversy, and cult prohibition in cultures since antiquity. Weighing souls: the Last Judgement and the Resurrection. Jewish, Christian, profane, and critical arguments. Hopes and the plunge into hell in modernity. Crises, catastrophes, and the Holocaust in the commemorative cultures of modernity.

Ali: The Well-Guarded Secret: Figures of the First Master in Shi'i Spirituality Mohammad Ali Amir-Moezzi, 2022-11-07. Al, son of Abi Talib, Muhammad's son-in-law and cousin, is the only Companion of the Prophet who has remained to this day the object of fervent devotion of hundreds of millions of followers in the lands of Islam, especially in the East. Based on a detailed analysis of several categories of sources, this book demonstrates that Shi'ism is the religion of the Imam of the Master of Wisdom, just like Christianity is that of Christ, and that Al is the first Master and Imam par excellence. Shi'ism can therefore be defined in its most specific religious aspects as the absolute faith in Al, the divine Man, the most perfect manifestation of God's attributes, simultaneously spiritual refuge, model, and horizon. Kishwar Rizvi, 2017-11-06 *Affect Emotion and Subjectivity in Early Modern Muslim Empires* presents new approaches to Ottoman Safavid and Mughal art and culture Taking artistic agency as a starting point the authors consider the rise in status of architects the self fashioning of artists the development of public spaces as well as new literary genres that focus on the individual subject and his or her place in the world They consider the issue of affect as performative and responsive to certain emotions and actions thus allowing insights into the motivations behind the making and in some cases the destruction of works of art The interconnected histories of Iran Turkey and India thus highlight the urban and intellectual changes that defined the early modern period Contributors are Sussan Babaie Chanchal Dadlani Jamal Elias Emine Fetvaci Christiane Gruber Sylvia Hougteling Kishwar Rizvi Sunil Sharma and Marianna Shreve Simpson **Dans le laboratoire de**

Hannoum, 2016-07-15 *Islam in Africa* is deeply connected with Sufism and the history of Islam is in a significant way a history of Sufism Yet even within this continent the practice and role of Sufism varies across the regions This interdisciplinary volume brings together histories and experiences of Sufism in various parts of Africa offering case studies on several countries that include Morocco Algeria Senegal Egypt Sudan Mali and Nigeria It uses a variety of methodologies ranging from the hermeneutical through historiographic to ethnographic in a comprehensive examination of the politics and performance of Sufism in Africa While the politics of Sufism pertains largely to historical and textual analysis to highlight paradigms of sanctity in different geographical areas in Africa the aspect of performance adopts a decidedly ethnographic approach combining history history of art and discourse analysis Together analysis of these two aspects reveals the many faces of Sufism that have remained hitherto hidden Furthering understanding of the African Islamic religious scene as well as contributing to the study of Sufism worldwide this volume is of key interest to students and scholars of Middle Eastern African and Islamic studies **Bibliography of Art and Architecture in the Islamic World (2 Vol. Set)** Susan

Sinclair, C. H. Bleaney, Pablo García Suárez, 2012 Following the tradition and style of the acclaimed Index Islamicus the editors have created this new Bibliography of Art and Architecture in the Islamic World The editors have surveyed and annotated a wide range of books and articles from collected volumes and journals published in all European languages except Turkish between 1906 and 2011 This comprehensive bibliography is an indispensable tool for everyone involved in the study of material culture in Muslim societies

Naming the Sacred Anna Mambelli, Valentina Marchetto, 2019-05-20 At what point is a place perceived as holy And when does it become officially so in its definition Inspired by the UNESCO debate and decisions made concerning holy places the authors seek answers to these questions Naming the Sacred is a diachronic excursus into the issues of perception and denomination of holy places The volume examines historical cases in which names and places have been modified or literally eliminated and others where places were subject to policies of protection and tutelage The work appertains to an ongoing evolving global debate where the challenge of the reciprocal recognition of holy sites has become increasingly complex

The Other Shiites Alessandro Monsutti, Silvia Naef, Farian Sabahi, 2007 Shia Islam is a central issue in contemporary politics Often associated with Iran Shiite communities actually exist in many Islamic countries Focusing on the other Shiites outside Iran this book offers a survey of their diversity and multiplicity in the last two centuries The contributions cover three major topics The first part deals with the relationship of Shia minorities to the Sunni regimes Secondly the public affirmation of their identities through specific rituals and social attitudes is analysed Finally the third part of this volume examines the strengthening of these identities through traditional religious rituals and cultural performances or through the re interpretation and adaptation of these to present day life Coming from various academic backgrounds the authors have used different methodologies and have been engaged in field work

Des cultures et des Dieux Jean-Christophe Attias, Esther Benbassa, 2007-09-19 Attentats du 11 septembre 2001 choc des civilisations revendications communautaristes apparaît nouveaux de spiritualité Face cette explosion de phénomènes et de discours les Français tant anticléricaux tant très peu ou mal formés la culture religieuse se sentent parfois désorientés Ce livre leur fournira certaines des clés qui leur manquent Judaïsme christianisme et islam s'y taillent une part importante parce qu'ils ont marqué l'histoire de l'Europe Mais traditions d'Afrique d'Asie ou d'Amérique et nouveaux mouvements religieux sont aussi abordés Outre leur intérêt intrinsèque notre passé colonial les grandes migrations de l'époque contemporaine la diffusion en Occident des sagesses orientales l'imposaient Ni apologétique ni dénigrateur ne cultivant ni l'irénisme ni le goût du sensationnel ce travail d'équipe conçu et conduit avec brio par Jean

Christophe Attias et Esther Benbassa se veut non confessionnel et distancié. Il porte une attention particulière aux phénomènes de contact de conflit mais aussi d'imprégnation mutuelle entre religions différentes sans oublier l'histoire des laïcités et les processus de sécularisation. L'étude passionnée des faits religieux est une fenêtre privilégiée sur la diversité des cultures. Elle est en même temps une invite au dialogue et la compréhension réciproque. Simples curieux, parents, enseignants, étudiants, lycéens jeunes et moins jeunes sauront faire de ce livre l'usage qui leur convient. Puisse-t-il devenir entre leurs mains un modeste mais efficace outil de liberté.
