

# AN OVERVIEW OF THE **ISO 50001** CERTIFICATION

ISO 50001 is the international standard for energy management systems. It helps organisations to establish systems and processes that improve their energy performance - including energy efficiency, use and consumption. Organisations of any size, and across all sectors, can voluntarily work towards achieving the ISO 50001 certification.

## THE BENEFITS OF CERTIFICATION

Improves energy performance and operational efficiency

Results in operational cost savings

Reduces vulnerability to energy price fluctuations

## CERTIFICATION STEPS

# 01

Carry out an ISO 50001 gap analysis

# 02

Develop an implementation plan and document progress

# 03

Perform an internal audit in preparation for the ISO 50001 audit

## **Standard Iso 50001 Manual:**

**Manual of Environmental Management** Adrian Belcham, 2014-09-25 Manual of Environmental Management is a practical guide for those involved in the control and reduction of environmental impacts in organisations. This comprehensive and practical guide takes you through the main environmental challenges organisations face and the improvement strategies used to manage them. Chapter by chapter Manual of Environmental Management discusses the fundamental issues and principles surrounding environmental policy, law and management and provides crucial information on how to respond and implement environmental programmes. This book is the perfect reference tool for the environmental professional and an invaluable study text for those preparing for professional examinations such as the NEBOSH Environmental Diploma and IEMA Associate Membership Exam.

**Urban Water Reuse Handbook** Saeid Eslamian, 2016-01-05 Examining the current literature, research and relevant case studies presented by a team of international experts, the Urban Water Reuse Handbook discusses the pros and cons of water reuse and explores new and alternative methods for obtaining a sustainable water supply. The book defines water reuse guidelines, describes the historical and current

**Handbook on Product Standards and International Trade** James J. Nedumpara, Satwik Shekhar, Akshaya Venkataraman, 2021-11-05 Global Trade Law Series Volume 55. India, one of the world's foremost trading nations, exhibits a particularly complex regulatory landscape with a variety of standard setting bodies, regulators, accreditation and certification bodies, inspection agencies as well as several state level regulators. This is the first book to extensively describe the nature of standard setting processes in India and the key agencies involved with this task, greatly clarifying the scope of market opportunities in the country. Lucid contributions from experienced practitioners and regulators with first hand experience in formulating and advising on standards related issues in international trade help disentangle the web of laws, regulations, operations and functions of India's standard setters in governmental, non governmental and industry contexts. The chapters describe how standards apply to such crucial trade aspects as the following: conformity assessment practice and procedure, environmental, ethical, social and safety issues, import bans and import licensing, certification and labelling measures, mutual recognition agreements, food safety and standardisation of the digital economy. The book is drafted throughout in an easy to read style with numerous tables, flowcharts and figures illustrating step by step compliance procedures. Informative annexes guide the reader to relevant agencies and identify their roles and responsibilities. This book provides a clear and concise guide to the operations, functions and compliance and documentation requirements of India's standard setting and regulatory bodies across all sectors and products and thus will serve as an unmatched guide for manufacturers, traders and exporters operating in the Indian market or seeking to export to India. It will also serve as a useful Handbook to policymakers, academics and researchers interested in understanding the role of standard setting bodies in the field of international trade.
