Star Trip The Journey Of North Star:

INITIATORY ASTROLOGY The North Star and the ascension to the higher states of being. The real stellar secret of the Divine Comedy GIACOMO ALBANO, Zoe Martinini, 2021-12-26 The readers of this book will have access to secret knowledge that has never been published before This book explains how the ascension to the stars happens from the point of view of initiatory astrology that is how to choose and use certain astrological moments for the operations of the ascent of the planes The aim is to delineate a Stellar Way for the ascent to Heaven up to the Supreme State or at least to learn how to progressively bring the consciousness to higher levels with the help of certain star maps that we will learn to create interpret and revive in our Microcosm In fact it is possible to transpose on the Celestial Sphere the traditional teachings about the higher states of being The influence of the various parts of Heaven that colors the stars differently according to the various phases of their precessional cycle is one of the important things which is entirely unknown to modern astrologers and was known only to the initiates of the most remote antiquity It confirms the existence of a secret initiatory astrology very different and much more useful and profound than that commonly practiced The ascension to the higher states of being up to the Supreme State can take place only along the lines of the colures This supreme state is represented by the point of intersection between the two colures represented by the North Pole As we will see in the course of the book in order for this ascension to take place it is necessary that there are stars along the colures corresponding to various states of being that are like so many stations that one must pass through At the same time they are similar to vehicles that can transport us higher and higher The higher the northern declination of the stars the higher the state of being they represent not because of their own nature but because of the part of Heaven in which they are located The more one rises along the northern sky the more one enters into a subtle and etheric dimension which precisely for this reason can be inaccessible or traumatic for those who are not ready to get rid of the ego and the sense of corporeality These ascensions also require the presence of one or more planets along the colures themselves In fact our first means of transport to detach ourselves from the earth will surely be one or more planets since we cannot directly identify ourselves with the very high state of consciousness corresponding to a star We will talk about all this in a very technical and in depth way including some examples And we will do so after demonstrating how these particular stellar factors were well present and active in the periods when the greatest turning points in the history of human spirituality occurred We shall thus examine the stars of the Buddha and those of Pythagoras of Moses and Jesus and much more There are many clues that suggest that in the Commedia Dante described in the allegorical form a stellar journey very similar to the one we describe in this work It is no coincidence that Dante concludes each cantic with the word stars and it is no coincidence that the last verse of each cantic is isolated in the sense that it is not part of a triplet like all the others All this must have a precise meaning because a medieval and sapiential poet like Dante did not do anything by chance or for simply poetic reasons It is likely that Dante had access to initiatory knowledge about some

traditional techniques of ascension to Heaven through the stars and that is why he included in his poem so many references to the stars closing each poem with an isolated verse ending with the word stars In Dante s time the North Star was located on the equinoctial colure and it is from the North Star that we will start to discover this secret message **North Star to Southern Cross** Will Kyselka,Ray Lanterman,2021-05-25 Concise field guide to stars and constellations presented in a month by month selection of stars charts Explains celestial phenomena workings A gem **The Stargazer's Guide to the Galaxy** Q. L. Pearce,1991-09-15 A guide to identifying constellations includes an explanation of the mythology surrounding them and a description of its most notable stars *Northern Stars* Laurence Cockcroft,2018-10-23 Northern Stars tells the dramatic story of a Chartist March from Todmorden in West Yorkshire to London in 1839 seen through the eyes of two children aged ten and twelve Ruth and Joshua Midgeley ruthlessly thrown out of work join a mass meeting on Todmorden market addressed by Feargus O Connor the charismatic leader of the Chartist movement and publisher of the Northern Star newspaper Together with their father and six other marchers from Todmorden they witness the break up by the soldiers of a mass meeting in Manchester and participate in a dangerous walk over Kinder Scout in Derbyshire to escape the military They see the arrest of their father and others in Nottingham arrive in London only to get arrested themselves and thrown into goal in Bow Street while the mass march supporting the Charter is charged by cavalry On the way Ruth and Joshua meet children of their own age all caught up in dramatic situations in Manchester Nottingham and London and all victims of the incredible speed of industrialisation They finally get back to Todmorden but are determined never to work as slave labour in the mills again *Northern Stars* Anna Legaspi,2013-12-20 The author began writing with the intent of creating a love story She starts out using her real life story and struggles and thought of embellishing the final chapter to make a happy ending of her own In an unforeseen turn of events God changes and directs the final chapter to make it a real life happy ending

innovative and iconoclastic look at the politico cultural relationship between Vietnam and China in the sixteenth to nineteenth centuries Overturning the established view that historically the Vietnamese sought to maintain a separate cultural identity and engaged in tributary relations with the Middle Kingdom solely to avoid invasion Liam Kelley shows how Vietnamese literati sought to unify their cultural practices with those in China while fully recognizing their country's political subservience He does so by examining a body of writings known as Vietnamese envoy poetry Far from advocating their own cultural distinctiveness Vietnamese envoy poets expressed a profound identification with what we would now call the Sinitic world and their political status as vassals in it In mining a body of rich primary sources that no Western historian has previously employed Kelley provides startling insights into the pre modern Vietnamese view of their world and its politico cultural relationship with China
