REAPER

The rumor that the Reaper Corps is composed of hard-core criminals resistant to intense neural reconditioning happens to be largely true. These risk-addicted jetpack soldiers train in barely survivable conditions, use wildly dangerous weapons, and when deployed, spend most of their time cliff jumping unsupported behind enemy lines.

The reapers' jetpacks (often called "jump packs," a more apt term) let them traverse low cliffs and other vertical obstacles, then glide safely to targets. Thus reapers excel as scouts and hit-and-run raiders. They can easily infiltrate enemy bases and resource operations, sabotage workers, and sabotage production facilities... and then quickly cliff jump away.

Combat Drugs. Reaper suits are lightly armored, sacrificing protection for maneuverability. But when wounded, the reaper is fast enough to retreat to safety, where specially developed cyokinetic drugs can trigger high-speed regeneration and healing. Some growth-related side effects have been observed.
